Maine...

INVITES YOU

His Excellency
EDMUND S. MUSKIE
GOVERNOR OF MAINE

EDMUND S. MUSKIE
GOVERNOR

STATE OF MAINE
OFFICE OF THE GOVERNOR
AUGUSTA

March 14, 1955

It is a very real pleasure for me to extend you a friendly bid to visit Maine.

My invitation - which I issue officially as Governor, and personally as a private citizen - does not limit you to any particular season. Come whenever you wish, be it summer or winter, spring or fall. Each season holds its own individual enchantment. But since summer is right at hand, let me picture briefly what you can expect in Maine.

Beaches that world travelers describe as rivaling the Riviera; thousands of shimmering emerald and blue lakes; towering hills that look up to mountains whose summits sweep passing clouds; a curving coastline with story-book bays and coves and harbors; an endless variety of pastimes and sports, such as boating, canoeing, sailing, mountain-climbing; golf courses galore; riding trails; campsites; summer theatres; recreation spots everywhere; and the finest fishing this side of Paradise. Whatever type of fishing you prefer awaits you amid surroundings not equalled on this entire continent.

Above all, you have accommodations that only true neighborliness can provide. The Pine Tree State's hotels, cabins, motels and lodgings are dedicated to your comfort and convenience in a climate that makes every hour doubly delightful.

On top of all these natural advantages - plus others which, for brevity's sake, I must omit - there remains one additional prize asset: Maine people themselves. Our men and women who offer you sincere friendship, warm hospitality. They are my neighbors, my friends. And they're the salt of the earth.

I know you'll agree with me once you meet them right here at home in Maine.

Sincerely,

Edmund S. Muskie
Edmund S. Muskie
Governor of Maine

MAINE

Invites You

THIS TWENTY-FIRST edition of MAINE INVITES YOU is designed to help you plan for that glorious vacation which only the great Pine Tree State can offer.

Between the covers of this booklet an endless variety of information has been arranged for the sole purpose of introducing you to Maine's limitless VACATIONLAND possibilities.

By word and picture we hope to convey some idea of the way Nature has showered her greatest blessings on Maine—silent, mysterious forests, the beauty of lakes and hills, the music of streams, the sweep of great rivers, the majesty of a rock-bound coast and sea-girt isles.

That's why it's such a pleasure to send you this copy of MAINE INVITES YOU—to assist you in planning for maximum enjoyment during your visit to Maine.

A county index map on the next page and a complete index of advertisers at the back of the book will help you to locate the place that may interest you. Handy inquiry cards also are included for your convenience in requesting more specific information or reservations from advertisers.

We'll appreciate your mentioning MAINE INVITES YOU when corresponding or conversing with those who have participated in making this book possible. This Bureau is at your service at all times to help you plan for the happiest vacation possible.

RIDE THE MAINE TURNPIKE

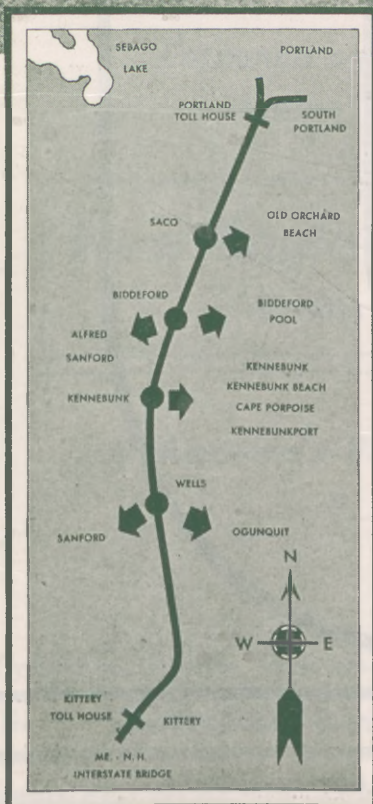

Motoring on this modern express highway, designed for greater safety and comfort, will add untold enjoyment to your trip, in relaxed travel through restful scenic beauty.

This express toll highway, extending from the Maine-New Hampshire Interstate Bridge straight north for forty-five miles to Portland, has four traffic lanes, a center parkway, wide safety shoulders, and bypasses all the busy and congested traffic. No interruptions—just safe, even, relaxed driving that will add rest and comfort to your vacation or business travel.

Restaurant and service station facilities at the KENNEBUNK MIDWAY provide convenient 24 hour service. Esso Service cars are always available for emergency road calls. The Howard Johnson Restaurant and Lunch Bar, located here, offers modern dining accommodations. A pedestrian tunnel connects Midway buildings on both sides of the turnpike.

MAINE in a nutshell — that's how a Maine visitor once described York County. For here in this "southern gateway to Maine" the State's travelling guest finds every form of natural advantages for vacationing, from world-famous beaches of sparkling white sand, from lakes and hills and streams to quaint, his-

toric hideaways of inland country and shore where for more than 300 years people have found relaxation.

To many of Maine's vacationers, the wonders of the State begin to unfold in York County. At Kittery, only 50 miles north of Boston, at Eliot, the Berwicks, and Lebanon, the main traffic arteries enter the State from the South.

At Kittery is the major highway entrance into Maine from the south over the Maine-New Hampshire Interstate toll bridge (10 cents), entered from the New Hampshire Turnpike, or through Kittery proper over the older Memorial Bridge (free) on Route One. Both routes flow into the intersection of U.S. Route One and the Maine Turnpike, at which junction is located the new Maine Information Center, operated by the Maine Publicity Bureau. This building also contains an exhibition hall for the display of Maine products.

You are cordially invited to stop and inspect this new hospitality building before continuing your trip into Maine. The parking area and driveway in front of the Maine Information Center gives access to both the Maine Turnpike and Route One. The Maine Turnpike and Kittery tollhouse is entered at the left of the triangular intersection, while U.S. Route One continues at the right of the intersection.

The Maine Turnpike is a 45-mile toll superhighway leading to Portland and South Portland, with exits and entrances at Wells, Kennebunk, Biddeford, Saco and Scarborough Downs race track. The Maine Turnpike is characterized as "the fast route," while Route One is known as "the scenic route," through historic coastal cities and towns, with glimpses of shore scenery and numerous access roads directly to shore and beach areas.

Along the shore travel line from Kittery, site of the so called "Portsmouth" Navy Yard, one comes to the historic and beautiful town of York, with its neat sand beaches, spectacular cliffs and quiet rural hamlets, favorite havens of writers, artists and tourists. York Village, York Harbor and York Beach are all strung out like pearls along a branch of Route 1A. The first chartered city in America, York was a popular summer playground for the Indians before it became a Royal Colony in 1641.

Ogunquit, locale of one of America's great summer theatre activities and a world-famous art colony, is an Indian name meaning "Beautiful Place by the Sea." Its beach, together with the beautiful strip of sand at Wells Beach, annually draws thousands of vacationers and summer colonists, to their spacious, uncrowded sands. Bald Head Cliffs, a geographical wonder, tower over 100 feet at the ocean edge here at Ogunquit.

A few miles further north along the coast is Kennebunk Beach and Kennebunkport, formerly known as Arundel. Here Kenneth Roberts and other famous authors and artists have their summer homes. Both places are on the shore side of the Town of Kennebunk, whose up-to-date business district and charming residential section retain so much Early American atmosphere and tradition. Cape Porpoise, a picturesque fishing village a few miles north of Kennebunkport, was the scene of one of Maine's outstanding Revolutionary War engagements. Goose Rocks Beach is one of the town's popular resort colonies.

(Continued on Page 15)

YORK BEACH

Located on U. S. Route 1-A

One of MAINE'S finer resorts—mile long sandy beaches—providing surf bathing and water sports, absolutely safe for children.

A resort where one can relax or participate in its many sports of golf, tennis, shuffleboard, sailing trips, deep sea fishing, etc.

Maine Invites You

Fortune's Rock and Biddeford Pool are on the ocean side of Biddeford, largest city and metropolis of York County, situated at the mouth of the mighty Saco River.

Biddeford is the site of the famous Pepperell Mills and the York Mill of the Bates Manufacturing Company. Saco-Lowell textile machinery made here equips mills throughout the world. A banking, distribution and shopping center, it forms, together with the City of Saco on the northern bank of the river, a locale for many smaller manufacturing and service industries. Both cities have excellent residential and shopping districts and small farm areas in their suburbs.

Biddeford and Saco also are hubs for highway traffic into the western and northern interiors of York County, with its hills and lakes. Shoreward from U. S. Route One, branch roads lead to Bay View, Camp Ellis, Ocean Park and Old Orchard Beach.

These latter communities, famous for years as summer colony and oceanside resort areas, now are increasing their year-around populations annually.

Old Orchard Beach, focal point of an eight-mile long white sand beach area stretching from the mouth of the Saco River to the Scarborough River at Pine Point, features a five-mile strip of smooth sand from 400 to 700 feet wide, warming the surf considerably on sunny days. With more than 100 hotels, scores of rooming houses and restaurants, it is a world-famous amusement and convention center. More Canadians visit this area of Maine each Summer than any other resort section, even in their own Country.

If the visitor enters York County from Dover or Somersworth, N. H., he comes into the State through the Berwicks which include Berwick, South Berwick and North Berwick. These are on the western side of the county, comprising a rich farming area and famous in New England history and tradition. The first saw-mill in New England was located in this area. Maine sent more men from this section to the Revolutionary War than any other area, and one family here provided Governors for both New Hampshire and Massachusetts.

Near South Berwick is the home of Gladys Hasty Carroll, contemporary novelist, who uses Maine and New England as the locale of many of her stories and writings. The Sarah Orne Jewett House, open to the public, contains some of the most beautiful features of any house in New England.

Beyond the Berwicks, the Bauneg Beg Hills, gateway to Sanford, have been developed as a summer playground, with fishing, swimming, hunting, hiking, golf-

ONE OF MAINE'S FINEST RESORT HOTELS

ing and all the other outdoor sports that the region affords.

Another gateway to Sanford is Route 202, entering the State from Rochester, N. H., and crossing the Salmon Falls River and the Town of Lebanon, rich in history and scenically beautiful with gently rolling, pine dotted hills, many brooks and ponds and a fine lake, North East Pond.

Sanford and Springvale are geographically in the center of York County and in the center of a superb lake and hill area. It is the largest community in Maine under the historic town form of administration and also is the home of Nasson College, first college for girls established in Maine. It has one of the finest airports in Maine.

Roads northwest from Sanford-Springvale lead to a great summer vacation region dotted with lakes and ponds and streams. Mousam Lake, Square Lake, Pleasant Lake, Balch Pond and Great East Pond, nestle among hills and rolling farm lands in Acton, Shapleigh and Newfield. The many pleasant ridges along this route afford spectacular views of the colorful apple orchards of the region.

Northeast from Sanford is the charming shire town of Alfred, whose courthouse vaults contain the oldest continuous court records in the United States, dating back to 1635. Beautiful old houses of prominent early families are located on quiet streets under towering elms. The Whipping Tree, on Oak Street, is said to be the only whipping post now remaining in New England from early colonial days. The colorful cranberry bogs and the Massabesic Experimental Forest are located close by.

Directly east from Alfred is the road to Lyman and Biddeford. Lyman is the heart of the county's white pine belt and has three large ponds, Kennebunk, Bunganut and Swan within its town limits. A village, Goodwin's Mills, is the business center of Lyman.

North from Alfred to Waterboro and East Waterboro one passes through a delightful recreational region, dotted with lakes and mountains. Shaker Pond is just off Routes 4 and 202, while at Little Ossipee Pond, beautiful Ossipee Mountain (1050') rises from the shore of the salmon-stocked lake. Ossipee Mountain has a CCC automobile road almost to its peak and excellent picnic sites and open air fireplaces for the public. From the summit is a breathtaking view for miles in every direction.

From the Waterboros Route 5 leads to the northwestern corner of York County, where are Limerick, East Parsonsfield, Cornish and Limington. This again is beautiful hill and lake country, with Sokokis Lake, Little Ossipee River, Pequawket Lake and other lesser

• ON ATLANTIC HIGHWAY NO. 1 • SACO • MAINE •

ponds and streams and villages and pleasant valleys that made it a favorite region of the Indians and early settlers.

Inland York County is especially attractive in the Spring and Fall. The snow white blossoms of the many apple orchards of spring time and the richly laden trees of fall set against colorful foliage is a spectacle long to be remembered.

In the north central part of the county is the famous Saco River Valley Region of Dayton, Hollis Center, Bar Mills and West Buxton, the latter made famous by, among other things, Kate Douglas Wiggin's "Old Peabody Pew." The scene of this famous story and play is the old Tory Hill Meeting House at Buxton Lower Corner.

Besides its world-famous textile plants and its unequalled recreational advantages, York County is a highly developed agricultural area. It is part of the Atlantic Truck and Vegetable Region, growing crops such as peaches and melons usually grown farther south. Dairying, poultry raising, orcharding and forestry are important components of its rural economy and it contains the largest orchard in Maine of more than 16,000 trees.

Well-kept homes and farms, excellent highways, varied industrial opportunities, every form of recreational advantage close by, from the mountains to the sea, and the keen civic consciousness of its residents justify them in regarding their section of the State as the "show window of Maine."

CUMBERLAND *County*

CUMBERLAND COUNTY, Maine's most populous area, is, like York, a scenic wonderland stretching from the mountains to the sea. Along the coast, where most vacationers enter the State, are beaches, stern headlands and cliffs, scores of harbors, islands and inlets, where boating, swimming and deep and shallow water

fishing offer residents and vacationers alike an unlimited scope of activities.

Inland the great Sebago Lake-Long Lake chain, with its scores of lesser lakes and ponds and streams covering an area of hundreds of square miles provides a recreational area for many thousands of persons annually.

Pine Point, adjoining the Old Orchard Beach section of York County, continues the beach features of the coast, with famous resort centers such as Prout's Neck, Scarborough Beach, Higgins Beach, and Cape Elizabeth

forming the southern side of the great Casco Bay area centering on Maine's largest city, Portland. The Casco Bay area contains hundreds of islands long popular with vacationists. Along its shores, from Cape Cottage and South Portland, the scenic route passes through Falmouth, Cumberland, Yarmouth, Freeport and Brunswick, thence seaward southeast to the northern shores of Casco Bay, to the resort and fishing areas of Harpswell, Great Island, Orr's Island and Bailey Island.

Portland is the metropolis for this coastal area, "the beautiful town that is seated by the sea" of its native Longfellow. On a peninsula less than a mile wide, swept by cool sea breezes, it is a city of modern hotels, banks, department stores, numerous industries, theaters, libraries, churches and museums. Eight golf courses, many tennis courts, bridle paths, fresh and salt water boating and beaches are in the city or nearby.

In the adjoining City of Westbrook are the great paper mills of the S. D. Warren Company, makers of the paper on which this booklet is printed, the Dana Warp Mills of the textile industry, dowel, box and other industries. Westbrook also is a shopping and highway gate to the southern Sebago Lake area and is on Route

The SEBAGO LAKE-LONG LAKE REGION

The Heart of Vacation Land

This beautiful region of lakes, mountains and forests well deserves its popularity among vacationers, sportsmen and lovers of fine scenery. It is one of the most accessible recreation areas of New England, and within an easy ride are Maine's famous seacoast, New Hampshire's White Mountains, the shops of Portland and similar points of interest. Here is found the earliest land-locked salmon fishing in New England—modern inns and camps—a most healthful climate and widely varied opportunities for year round enjoyment.

**BRIDGTON—CASCO—HARRISON—NAPLES
RAYMOND—SEBAGO—STANDISH—WINDHAM**

For map and illustrated folder and list of accommodations, write:

SEBAGO-LONG LAKE REGION ASSOCIATION, INC., Sebago Lake, Me.

25, main artery through Northern York County to Freedom, N. H., and the Ossipee area.

Northwest from Portland, on the threshold of the great Sebago Lakes region is a farming area famous for dairying and vegetable crops. This includes North Yarmouth, Gray, Windham, Standish and Gorham. In Standish is a State game preserve, where deer and other native animals have sanctuary each year and populate the entire section of the State for fall hunting. In Gray, New Gloucester and Raymond are state game farms and the largest trout hatchery in the world.

Sebago, second largest lake in Maine, is the native habitat of fighting landlocked salmon, square-tail trout, black bass and numerous other fresh water species which are caught, from Spring to Fall. Bordering towns of Windham, Raymond, South Casco, Sebago and Standish offer vacation facilities by the hundreds, ranging from overnight camps to exclusive lake shore resorts. This area too, provides the sites for scores of summer boys and girls camps.

The storied Songo River connects Sebago Lake to the north with Long Lake, along the shores of which are such busy inland resort centers as Naples, Bridgton, North Bridgton, Harrison, Otisfield and Casco. Scores of other lakes and ponds, such as Little Sebago, Panther Pond, Crescent Lake, Thomas Pond, Pleasant Lake, Highland Lake and Thompson Lake, dot this area.

On U. S. Route 302, 6 miles west of Bridgton, is lo-

cated one of Maine's major ski centers, the Pleasant Mountain Ski Area. Here a 2,000 foot Constam T-Bar lift operates throughout the Winter months and a 4,000-foot Chair Lift is under construction toward further developing this popular Winter Sports area.

Adjoining Oxford County to the west, the hill and lake sections of Baldwin, Douglas Hill and Steep Falls abound in trout and bass waters, bridle paths and hiking trails, camp sites and farming and lumber country.

Along the north central rim of the County is the historic town of New Gloucester, where the famous Shaker Society was organized in 1794, and the present Shaker Village and Church on the road to Poland Spring attract many visitors. Its farm lands and forest slope down to beautiful Sabbathday Lake.

Bradbury Mountain State Park in Pownal contains a granite bluff rising 484 feet facing south, with a beautiful panorama of Casco Bay and the islands and estuaries off Freeport.

Freeport also has been called the "birthplace of Maine," for it was here that commissioners from the District of Maine and its parent Commonwealth of Massachusetts met in 1820 and signed the papers which made Maine a separate state of the Union.

Brunswick, easternmost town of the County, is the site of Bowdoin College, historic guardian of culture, whose distinguished sons over the years have provided

state and national leadership. Here also, textile and paper mills have for many years poured economic life-blood into the surrounding area.

Harpwell, Great Island, Orr's Island and Bailey's Island, reached by highway from Brunswick or by passenger steamer from Portland, are picturesque vacation and outing spots. The sight of a Maine lobsterman fixing his traps, or a small boat fisherman mending his nets, is commonplace along the shore. Here tuna fishing has become both a great sport and an important summer industry in recent years and deep sea fishing trips can be arranged on short notice. On Orr's Island is "Pearl House," locale of Harriet Beecher Stowe's "The Pearl of Orr's Island."

JUNE THRU SEPTEMBER

American Plan

Besides being the focal points for business and transportation in the County, Portland and South Portland are cities of many types of industries. They are constantly growing, yet are not congested.

Magnificent views of Casco Bay on the east and the mountains on the west are to be had from Portland's Eastern and Western Promenades, beautiful landscaped esplanades on high ground at either end of the city. Noteworthy points include its unsurpassed water system (from Sebago Lake); Kotzschmar Memorial Organ in Portland City Hall, with public summer recitals by outstanding organists; Portland Municipal Airport (Class 3) near the Stroudwater terminus of the old Cumberland-Oxford Canal; the Wadsworth-Longfellow House; Portland Observatory on Munjoy Hill; Tate House; Victoria Mansion, the many museums and art exhibits and Portland's nearness to beach, lake and mountain.

West of Portland, at the Southwestern entrance to the Sebago Lake region is historic Gorham, first called Narragansett.

Numerous highways lead to the Sebago Lake-Long Lake region stretching to the northern part of the county and beyond, a veritable wonderland of lakes, streams, forests and hills. Sebago Lake, 14 miles long and 11 miles wide reaches a depth of 400 feet in some

places. From the crystal-pure, spring-fed waters of this lake comes the inexhaustible water supply for Portland and the surrounding area, including several of the Casco Bay islands. On the shore of Sebago in North Windham has been discovered the largest Indian burial ground in the United States and thousands of Indian relics have been collected there.

Sebago Lake State Park consists of 1,296 acres on the lake on both sides of the Songo River, which connects Sebago and Long Lakes. On the Casco side is a day-outing area, while a camping area is on the Naples side.

Throughout Cumberland County agriculture is highly developed and widely diversified. From its dairy herds have come national and world champions and its variegated soil produces every type of vegetable in abundance, its crops being shipped to all eastern markets. Sea and shore fisheries are a big industry in its coastal belt, while its scores of industries, both large and small, help make it a thriving, prosperous area.

OPEN MAY 15 TO OCTOBER 30

FRANK M. and CHAS. T. STONE, Managers

OXFORD County

NORTHWEST of Cumberland County and the Sebago-Long Lakes region lies a fairyland of lakes and hills, busy towns and quiet villages within the borders of Oxford County. Its western boundary is the state line with New Hampshire extending from the Fryeburg resort area to the wilderness of the Rangeley

Lakes-Magalloway River region. Its central area is composed of fertile farming country, summer and winter resorts and attractive industrial villages and towns.

The beautiful Androscoggin River runs through the middle of the county, west to east, and provides water and power for numerous industries, the majority of them concerned with woodworking and paper products.

Crossing into Oxford County in the south from the Sebago Lake region, roads from Hiram and East

Brownfield and from Naples and Bridgton lead to Fryeburg to the west; North Bridgton, Harrison and the Waterfords to the north and through the rolling hills and mountains of Sweden and Lovell to the northwest.

Fryeburg is the oldest town in the county, situated on a plain of the Saco River valley. Once an Indian settlement known as Pequawket, Fryeburg is now a resort and highway center between Southern Maine and the White Mountains. At the entrance to Maine along U.S. Route 302 is the Western Maine Information Center of the Maine Publicity Bureau and here Robert E. Peary, the Arctic explorer and a former resident placed the two Meridian Stones to indicate the true north for surveyors. Denmark, a few miles to the southwest, is a center of farming activities and summer camps.

From Fryeburg north into Oxford County, run two main highways that open up a country of lakes, hills and forests. Through North Fryeburg and Stow passes Route 113 to Gilead, named for its Balm of Gilead trees in the center of the town. This road for miles passes through a section of the White Mountain National Forest, which occupies an area of many square miles

Kezar Lodge
Route 5
Lovell, Maine

in this section of Maine. Six miles from Gilead is Evans Notch, from which may be seen spectacular views of the Presidential Range.

The second road from Fryeburg north through Oxford County is Route 5, passing through the Lovells to Bethel. Parts of Lovell Village, Center Lovell and North Lovell lie on lovely Kezar Lake, jewel of this region, whose pine-clad shores shelter many summer homes and widely-known resorts.

At Lynchville, further north on Route 5, is the Bumpus Mine, one of the most productive feldspar deposits in the State, where clear pink and green beryl crystals are found. Albany and Stoneham both are centers of hilly-wooded townships where bridal paths and mountain climbing attract the hardier souls.

South from Lynchville on Route 35 are North Waterford and South Waterford, where Lake Keoka and the Five Kezars are favorite cottage and camp sites. Waterford is the birthplace and home of the late Artemus Ward, famous American humorist.

In the Southeastern section of Oxford County is Oxford, on the northern shore of Thompson Lake, an outstanding recreational and fishing area, which lies partly in Cumberland County.

Norway at the southern end of Lake Penneesseewassee is a business and recreational center for the surrounding area. It is noted for its manufacture of shoes, wood products, snowshoes, skis, sleds and moccasins and several nearby mines turn out feldspar, quartz and semi-precious stones.

A few miles east of Norway is Paris, shire town of the county, made up of South Paris, West Paris and Paris Hill. South Paris is also a busy industrial and business center, producing wood and leather products, toys and novelties. Paris Hill was the earliest residential section of the township and the birthplace of Han-

Four Ponds Camps

Fishermen, vacationers, something different—in the Rangeley Region, off the beaten path, secluded, real backwoods atmosphere, nearly 3000 ft. above sea level, beautiful mountain country. Plain light housekeeping camps equipped for wilderness living. Excellent trout fishing in all four ponds, fly fishing and trolling. Boats on two nearby ponds. No hay fever. Reasonable rates. Write for folder.

HAROLD E. SEVERANCE
Centre Lovell, Maine

nibal Hamlin, Vice-President of the United States with the martyred Lincoln. From here a spectacular panoramic view of the Oxford Hills is afforded. Nearby are Snow Falls, with a drop of 40 feet to the gorge of the Little Androscoggin River; a Maine Mineral Store, a museum of Maine gems, and Mount Mica.

Bryant Pond and Locke's Mills, both on the road from Paris to Bethel, are summer business centers for a surrounding lake and hill area, and have several small industries, notably in wood products. At Bryant's Pond is located Lake Christopher, one of Maine's prettiest small lakes. Nearby are the Greenwood Ice Caves, formed by landslides of huge boulders which make up large caverns inside which ice is found in midsummer.

Bethel, originally called Sudbury, Canada, is a pleasant, attractive community nestled in the Oxford Hills and along the banks of the Androscoggin River. Its Gould Academy is one of the leading preparatory schools of the State. Songo Pond, Twitchell Pond, North Pond and Lake Christopher are in the Bethel-Locke's Mills-Bryant Pond area.

From Bethel Route 26 follows the course of the Androscoggin to North Bethel and Newry, thence northwest to North Newry, Grafton Notch and Upton. Mt. Plumbago in Newry has a greater variety of gems than any other Maine deposit. Screw Auger Falls, where the swirling water of Bear River has worn holes up to 25 feet deep in the solid rock of the river bed, is one of the many sights in this locality. Old Speck Mountain and Baldpate Mountain are separated by Grafton Notch in the trip through this scenic wonderland.

Upton, last town in Oxford County on this route, overlooks Umbagog Lake, source of the Androscoggin River, which drains the Rangeley Lakes region.

Hanover and Andover are located on Route 5 from Newry to South Arm, at the lower end of Richardson

BETHEL, MAINE

Lake. From South Arm vacationers, sportsmen and campers go by boat and woods roads to Middle Dam and Upper Richardson Lake to Upper Dam, connecting with the western side of Mooselookmeguntic Lake, largest of the Rangeley chain. This entire area is an unspoiled wilderness of lakes, woods, streams and mountains. Aziscoos Mountain, Sawyer (Aziscoos) Lake, Parmachenee Lake, for which the famous Parmachenee Belle trout fly was named, and West Kennebago Mountain, are annual favorites with thousands of fishermen, hunters and vacationers. The Magalloway and Rapid Rivers and Cupsuptic Stream are famous for their fighting square-tail trout and lakes of the area yield large land-locked salmon.

Route 16, from Rangeley, cuts across the upper corner of Oxford County, connecting Pleasant Island at the upper end of Mooselookmeguntic with Wilson's Mills on the lower end of Sawyer Lake.

On the eastern and central side of Oxford County are such towns as Hebron, an agricultural and orcharding center, site of historic Hebron Academy and a State Sanatorium; Buckfield, Sumner, Hartford, Canton, Peru, and Dixfield, all of them centers of farming and recreational areas and with small industries nearly all based on various wood products. Anasagunticook Lake in Canton has bass, salmon, trout and perch and is popular with many sportsmen.

Rumford is the largest community in the county and is the site of one of the largest paper mills in the

CANTON, MAINE

world, the Oxford Paper Company. Here the Ellis, Swift and Concord Rivers flow into the Androscoggin and the Falls are within direct view of the business section. This latter is on an island formed by a canal and three bridges connect it with the mainland.

An important social center for that section of the County, Rumford is also regarded as one of Maine's outstanding winter sports centers, with championship ski jumps, cross country trails, and other facilities. Nearby is Mount Zircon, famous for its Moontide Spring, the flow of which is influenced by the moon's phases and increases 22 gallons a minute when the moon is full.

North from Mexico are Frye, Roxbury, Byron and Houghton on the road to Oquossoc. Route 17 here follows the course of the Swift River through a region of farms and woodlands. Byron, on the Swift River, is one of the few places in Maine where gold can be washed right out of the river bed.

Beyond Houghton, Route 17 continues over the "Height of land" to Oquossoc in the Rangeley Lakes Region.

Oxford County comprises a total of 1,980 square miles. It has 301 named peaks and scores of others that bear no name. It is a county of lakes and hills, of medium elevation, where sparkling, pineladen air adds to the zest of living in Summer or Winter. Its agriculture and industry have been a source of prosperity for its residents and to the thousands who visit the county annually for sports or vacations it offers a rendezvous with nature that has no equal.

FRANKLIN *County*

FRANKLIN COUNTY, adjoining the eastern border of Oxford County, is one of the so called northern tier of Maine counties whose northern limits stretch into the great expanse of forests, lakes and mountains contiguous to the Canadian border.

In the southern section of the county it is bisected by the fertile valley of the Sandy River, while the west central section contains the eastern half of the world-famous

Rangley Lakes region.

Farmington, in the south, is the shire town and hub of the county, with good roads leading from it to the many smaller towns and villages, through rolling country of indescribable beauty, dotted with lakes, blue-capped hills and picturesque forest—emerald green in Summer, dark in Winter, multi-colored in Spring and

gorgeously gay in Autumn from the valleys to the rounded summits.

Farmington is the main highway gate to the Rangley and Dead River regions and the business and commercial center of a great agricultural, orcharding and recreational region. Sweet corn, canning peas, potatoes, dairying and small grains are raised in abundance in this section. Farmington also is the birthplace of Madame Nordica, whose home is a shrine open to visitors and here also is the home of Jacob Abbott, author of the famous Rollo books and many others. The famous Abbott family school for boys was opened here in 1841, achieving national fame as the Little Blue School. Here also is one of the State's best known teachers' colleges. Clearwater, Norcross, Var-num and Wilson Lakes are nearby. There is bass fishing in the Sandy River and trout abound in the nearby streams that flow from the countless springs that gush from the hillsides.

Southwest of Farmington is Wilton, with a beautiful panorama of Wilson Lake. With its sporty golf course and unequalled facilities for boating, canoeing, swimming, fishing and other lake sports, it is a favorite of vacationers and picnickers. The famous Wilton Woolen Mill, Bass Shoe Factory and wood products and canning plants provide industrial income for hundreds of nearby residents. Wilton and Farmington also are active winter sports centers. Widely-known Wilton Academy, a fine public library and an active and enthusiastic civic group help make Wilton an attractive town.

Housekeeping camps, just off Rt. 16, on Rangeley Lake Open May 1-Nov. 15. Gas ranges, electric refrigerators, screened porches, continuous hot and cold water, complete bath, fireplaces. Camps accommodate 2-6 persons. Catholic and Protestant churches nearby.

FORREST D. WEST, Proprietor

RANGELEY, MAINE

Jay and Chisholm, on the road to Auburn, are centers of quarrying and pulp and paper manufacturing and have seasonal canning plants. Farmington Falls and New Sharon are southeast of Farmington and are small towns on the Sandy River noted as agricultural and small manufacturing centers. Chesterville is another pretty farming village.

A new, 300-acre Bird Sanctuary is being developed in Chesterville on Little Norridgewock Stream and should prove an important attraction for this area.

Weld, northwest of Farmington, is in a beautiful valley surrounded by rugged mountains. Here is found Mount Blue State Park, which lies also partly in Avon. This park contains 4,920 acres, runs to the east shore of Lake Webb and embraces Center Hill, with a good highway leading to its 1,600-foot summit. Scenic drives and hikes, swimming and water sports and a marvelous panorama from a parking overlook make Mount Blue State Park a favorite of campers and tourists.

Northeast of Farmington is the little village of New Vineyard, a favorite hunting and fishing area. Strong, on the Sandy River, is a farming, livestock and small

tation. It is a vast wooded area where big game, game birds and smaller animals roam unmolested. Stratton and Eustis are villages famed as campsites on the Arnold Trail, named for the route taken by Benedict Arnold and his men on their ill-fated march through Maine to Quebec. Just outside of Stratton, which is on the western side of newly-created New Flagstaff Lake, are the famous Cathedral Pines, a tract of several square miles of tall Norway pines, one of the few remaining stands of virgin timber. From Eustis the road follows the northern branch of Dead River over the Height of Land and through Chain of Ponds to the Lake Megantic region in Quebec. There Arnold's men

followed the Chaudiere River to where it empties into the St. Lawrence near Quebec City.

The most travelled road out of Farmington is Route 4, leading to the Rangeley region. Strong, known as the toothpick center of the state, has many woodworking and woodturning mills. Phillips is a thriving community in the upper Sandy River valley, overshadowed by majestic Mount Blue, Saddleback and Mount Abraham. Fertile upland and alluvial soil produce bumper crops in the nearby area and dairying and livestock also find a ready market in the nearby Rangeley section. Various lumber and wood products factories as well as resorts make for a busy area economy.

A few miles north of Phillips is said to be one of the grandest scenic panoramas in Maine, with a view of a half-dozen mountains on all sides. Madrid on the road to Rangeley is a small village on the western branch of the Sandy River, which here contains a number of beautiful falls.

William F. Kimber Tel. 16-5 Eustis, Maine

Rangeley is the center of the far-famed Rangeley Lakes region, with numerous hotels, lodges and camps, a seaplane base, boat service and a wide-range of sports facilities. Its three golf courses are 2,000 feet above sea level and the entire area is famed as a health-giving summer resort, free from hay fever conditions. Within a radius of 10 miles are more than 40 trout and salmon lakes and ponds of all sizes. In Rangeley chain of lakes are Rangeley, Quimby Pond, Dodge Pond, Kennebago, Loon, Saddleback, Mooselookmeguntic, Cup-suptic, Upper and Lower Richardson, Aziscoos and Umbagog, with connecting streams making an area of more than 450 square miles for fishing, hunting, canoeing, swimming, or just plain loafing.

From Rangeley Route 16 goes northeast to follow the South Branch of the Dead River, through Dallas Plantation to Stratton. A private toll road goes north to the Kennebago Region, with Big and Little Kennebago Lake and connecting Kennebago Stream, a region where fly fishing is unequalled.

West from the village of Rangeley is the road along

EUSTIS, MAINE

SOMERSET COUNTY is another of the northern tier of Maine counties, its southern end a part of the fertile and industrial region of Central Maine and its northern reaches traversing a vast roadless area of rivers, lakes and forests extending into Canada.

The great Kennebec River flows southward for more than half its length within the borders of the county and in the northern part of the county are the headwaters of the St. John and Penobscot Rivers. The southern border of the county invades the famous Belgrade Lakes section of Central Maine.

Skowhegan is the largest town and the county seat. It is the hub of a network of roads entering the county from various directions. From it the main roads lead north through the county to Jackman and into Quebec.

The center of a rich farmland area, Skowhegan is an up-to-date small city with modern stores, hotels, restaurants and other facilities and a residential area with many fine historic homes and tree-shaded streets. Leading industries are woolen goods, shoes, pulp and paper, canning, wood products and commercial activities.

Five miles from Skowhegan is Lakewood, world famous summer resort and summer theatrical center on the shore of Lake Wesserunnett. Its summer theater dates from 1900 and it has achieved fame as "Broadway in Maine."

Norridgewock, southwest of Skowhegan, was the original shire town of the county and is rich in Indian and historic lore. There still stands the early Congregational Church, the old county jail and the Danforth Tavern, where the old bar and ballroom remain intact. The trip from Norridgewock to Madison leads past the Old Point section, where Father Rale, missionary to the Indians, was killed in 1724.

Other towns in the southern corner of the county include Mercer, a little lumbering and farming village; Smithfield, between North Pond and East Pond on the

SOMERSET COUNTY

Skowhegan

ON THE KENNEBEC

One of the State's oldest and best known communities, nestled in the scenic Kennebec Valley on Routes 2 and 201 in central Maine. Locale of General Benedict Arnold's encampment—memorabilia of ill-fated expedition at History House museum.

Excellent stores and many thriving industries make Skowhegan the economic and trading center of Somerset County. Overlooking the Kennebec River is the beautiful home of Skowhegan's noted contemporary citizen, Senator Margaret Chase Smith.

The Lakewood Players, "Bringing Broadway to Maine" from June to Labor Day and the Skowhegan State Fair are among the many attractions.

Modern cabins, motels, tourist homes and excellent restaurants make Skowhegan the ideal stopping place for travelers en route to Quebec City. Complete information and assistance may be obtained from our Information Center located here.

A place to visit and a place to live . . . Skowhegan is a town of fine homes, modern schools, stately churches and many active civic organizations.

Jackman

The Switzerland

PICTURE a great summer playground of one thousand square miles, 40 long by 25 wide—large as the state of Rhode Island—composed of 28 “wild land” townships each 36 square miles! This suggests the enormous expanse of the Jackman Region, but tells only a part of the story. It fails to convey an adequate picture of the vacation opportunities of this far flung recreation area whose towering mountains pierce the clouds 3000 feet—of the vast, unbroken forest—of the magnificence of numberless clear, sparkling lakes, set like diamonds in the great plush of spruce and pine and pungent fir—or rushing “white water” where hungry, fighting salmon await the fly and sporty trout lie in deep, dark pools—of little rivers that weave a net of wilder-

ness waterways for the canoeist and camper—of moose and deer and all wild life—of motor trips through mountain passes and quaint historic towns—or of the joyous vacation days awaiting you in the picturesque town of Jackman, Me., the last frontier in this great unspoiled Region on the historic “Indian trail” highway leading to Quebec. The summer climate is ideal.

Jackman, Maine, is the gateway to a dozen dependable sporting camps, just off the highway, in the deep wood, or a short ride by rail or motor boat, where fish and game are plentiful in a primitive and unspoiled territory. The town of Jackman, Me., an oasis in the center of this vast forest area—is a friendly town with smart shops, hotels, restaurants and tourist accommo-

FACTS ABOUT MAINE

Maine has a population of 913,774 according to the 1950 census.

Maine is 320 miles long, 210 miles wide, and has a total area of 33,040 square miles.

Maine is nearly as large as the other five New England states combined.

Maine has sixteen counties; containing 21 cities, 422 towns, 65 plantations, and 386 unorganized townships.

Maine's geographical location, topography, and climate make it an ideal region in which to live, work and play.

Maine is one of the most healthful, beautiful, and interesting states in the union.

Maine has 16,750,000 acres of forest land, 2,500 miles of indescribably beautiful coastline, 2,465 crystal-like lakes.

Maine's Aroostook County contains 6,453 square miles, an area greater than Connecticut and Rhode Island combined.

Maine raises one-seventh of the nation's potatoes; 75% of its blueberries.

Maine's highest elevation is Mt. Katahdin, 5,267 feet above sea level.

Maine is an agricultural state with approximately 50% of her people living in rural communities.

Maine farms number upwards of 42,000 with a total value of approximately \$230,000,000.

Maine's industries are well diversified.

Maine-made products embrace the list from checkers to warships, and from axes to yarns.

Maine has one factory using 5,000 cords of wood weekly, and another plant using 72,000 tons of coal annually.

Maine's toothpick production is about 170,000,000 a day.

Maine's cement plant, the only one in New England, produces 225,000 tons annually.

Maine produces 25% of all the feldspar used in America.

Maine has 19,865,000 acres of land surface and of this amount 16,783,000 acres are in timber and wood lots.

Maine's annual cut of lumber is approximately 500,000,000 feet.

Maine's annual cut of pulpwood is about 1,300,000 cords.

Maine claims America's first chartered city—York.

Maine has 61 public utility plants and 120 water power establishments.

Maine's lakes, mountains, seacoast, and other recreational assets make it a year round mecca for vacationists.

Maine's varied recreational interests bring to the State \$200,000,000 annually.

Maine is truly The Land of Remembered Vacations and the VACATIONLAND of the Nation.

industry, but now containing a large tannery and canning plant. Hartland, Cornville, St. Albans, Ripley, Harmony and Athens are farming centers surrounding the Great Moose Lake resort area, where fishing, hunting, boating and camping attract hundreds of visitors.

From Madison and Anson, Route 16 leads through North New Portland to Dead River Plantation and the new dam of the Central Maine Power Company, which has created an artificial lake 26 miles long and from one-half to four miles wide in the Dead River Basin.

Solon may be reached either from North Anson or Lakewood. It is a dairying center and is the site of Caratunk Falls, which may be viewed best from a railroad bridge spanning the river. Embden and Embden Pond are favorite hunting and fishing spots.

Further along the Arnold Trail is Bingham, gateway to Wyman Dam, which is in the Town of Moscow and has made in the Kennebec an artificial lake many miles long. The dam took two years to build and is 155 feet high and 2,250 feet long.

Ten miles above Bingham is the northernmost Arnold Trail marker in the Kennebec River section, for here his expedition left the course of the river to portage across country to Dead River and thence to Megantic. Pleasant Ridge, Carry Ponds, Rowe Pond and other desirable fishing waters and vacationing territory are in this region.

On the east bank of the Kennebec, the main highway continues on to Quebec over the so called Jackman highway through Caratunk, the gateway to Pierce Pond, Pleasant Pond and Moxie Mountain, and to The Forks, named because of the confluence of the waters of Dead River which has flowed down from the hills and lakes of Franklin County to join those of the Kennebec which have come from Moosehead Lake through the East and West Outlets.

ROCKWOOD

MAINE

reached via Tarratine, Long Pond, Lake Parlin and Jackman sections are fishing and hunting sections of renown. The lakes have an abundance of trout, landlocked salmon and togue and the woods abound with partridge, woodcock, deer, and bear. Pierce Pond, Mount Coburn, Spencer Lake and the Dead River region also are great hunting and fishing areas. From Jackman, Big Wood Lake, Attean Lake, Holeb Pond and the waters of Moose River are favorites with hunters, fishermen and campers.

Jackman is known as "the Switzerland of Maine" because of the background of many mountain ranges in the region.

At Jackman Route 15 extends to Rockwood on the westerly shore of Moosehead Lake, largest in Maine, and thence south to Greenville, crossing West and East Outlets to the southern shore of Moosehead.

Throughout this entire section and in Dennistown are summer camps where the public is offered fishing in abundance while in the Fall, during the hunting season, the opportunities for this type of sport are vast indeed.

The northern third of Somerset County is traversed by a private road now open to the public from Rockwood to Pittston Farm and on into Quebec. In this region, Penobscot Lake, Canada Falls, Seboomook Lake and Seboomook lie in a vast forest, lake and wilderness region reaching north to the St. John Ponds and Baker Lake. These latter are the headwaters of the mighty St. John River, which forms much of the northern boundary of Maine with Canada.

The Birches

A Modern,
Luxurious Vacation
Lodge for the
Discriminating

On Moosehead
Lake

Rockwood, Maine

HERE in one of Maine's few primitive deep woods settings is a group of modern, charmingly rustic cabins and lodge, all directly on the shore of Moosehead Lake. The cabins have the most amazingly comfortable casual furnishings. All have a living room, one or more baths and bedrooms and each has its own private dock and float for sunbathing, swimming, or for canoes and boats.

The huge peeled log dining hall makes every meal a relaxed unhurried occasion of complete satisfaction. Two excellent chefs serve up an inspired array of carefully prepared viands embracing the finest food to be had.

Around the conversation-provoking double fireplace in the lodge our select congenial guests gather for relaxation. Here are enjoyed informal parties, shows, games, and movies.

All water sports are available and the large T-dock is the center for swimming parties and sports events. Of course fishing is the main attraction and THE BIRCHES is right in the center of the best fishing grounds on Moosehead. Trout, salmon, and togue are brought in every day throughout the season.

Guides, boats, motors, and cabin cruisers are here for our guests.

Here is that "out of this world" spot you have been seeking . . . yet it is within easy reach by auto, train, or plane. Train or plane to Bangor, bus to Rockwood. By auto follow R. 150 from Skowhegan to Guilford, then take R. 15 to The Birches.

PISCATAQUIS, the "county of lakes," is the second largest county in Maine. Within its 4,205 square miles are 252,872 acres of water, almost twice as much as any other Maine county.

Located in the north central part of Maine, it contains four outstanding features: In the northern section it contains hundreds of large

and small lakes in a wilderness of forest and mountain; it contains Moosehead Lake, largest in the State; it is the site of mile-

high Mount Katahdin and Baxter State Park; and its southern section, containing most of its built up villages and towns, is an important agricultural and industrial area.

The Moosehead Lake region is one of Maine's most popular hunting, fishing and vacationing areas. Forty miles long and twenty miles wide, the lake contains

several large islands, many bays and inlets and is fed by scores of streams and lesser lakes. Hemmed by rugged mountains and flanked by the virgin forest, Moosehead has been a haven of rest and a center of sports and recreation for many years. Its waters provide unexcelled trout, togue and salmon fishing from the time the ice goes out, early in May, until the hunting season in October. From Moosehead Lake start five famous canoe trips: The East and West Branch trips, the Allagash, the Allagash Circuit and the St. John River trip.

Greenville, at the foot of the lake, is the starting point for excellent roads that strike for many miles northward along both sides of the lake into the wilderness regions beyond. To the west one road leads through Greenville Junction to East and West Outlets, Rockwood and Seboomook to Caucomgomoc Lake 80 miles to the north. The popular sportsman's settlement of Northeast Carry, 63 miles north of Greenville, is located on this road. To the northeast the other road leads through Lily Bay and Kokadjo to Ripogenus Dam at the foot of Chesuncook Lake and around Harrington Lake to Baxter State Park and the Katahdin region.

RELIEF FROM HAY FEVER

Maine is rapidly becoming known as a mecca for those suffering from hay fever.

Broadly speaking, places in the forested regions offer great relief and in many cases entire immunity is had, particularly in northern Oxford County and in the Rangeley region and the wooded country around Moosehead Lake. Probably anywhere up in the "Big Woods", region of Maine where grasses and pollen bearing weeds are not found can be confidently recommended.

Along the coast where the growth is principally coniferous Monhegan Island, Newagen, Squirrel Island, Mount Desert Island, Petit Manan and Eastport are recommended.

The MOUNT KINEO

On beautiful Moosehead Lake
OFFERS EVERYTHING!

If you insist that your summer headquarters be as secluded as the big Maine woods itself . . . yet as nicely appointed as your own home . . . you'll eventually discover Mount Kineo on famed Moosehead Lake. It's inevitable. For here you'll find the privacy you wish . . . the associates whose good taste matches your own . . . and the careful attention to details that you're accustomed to . . . and you'll leave the world behind you . . . literally . . . when you park your car at our modern garage at Rockwood . . . and step aboard one of our fast cruisers . . . and skim over sparkling Moosehead Lake to Mount Kineo a mile away.

WILDLIFE

The Mount Kineo is a peninsula jutting out into Moosehead Lake nearly two miles and all 1150 acres are a game preserve . . . the result is that deer and partridge are seen every day on the golf course and along our twenty miles or more of private roads and trails.

Mount Kineo offers the best of accommodations. All rooms are equipped with radio . . . telephone . . . full baths and showers . . . daylight illumination . . . circulating ice water direct from our own spring . . . steam heat . . . wonderful meals.

FISHING

Fishermen who take their sport seriously, KNOW the Moosehead Region . . . quoted in Life Magazine as one of the top ten fishing grounds in the country. Guides are available, and all kinds of craft from outboards for fishing, to fast speed boats for exploring this largest New England Lake.

SPORTS

Here a Sportsman's dream comes true . . . all weather Berkshire tennis court . . . five place trap shooting . . . and a most unusual golf course . . . you have your choice of playing nine holes including four up the mountain side, where you are rewarded for your climb by a wonderful view of Moosehead Lake . . . or you can play nine rolling holes including four new holes bordering on North Bay and with a spectacular view of the Mount Kineo cliff nearly one thousand feet high. New 75 foot Swimming Pool.

FAMILY

Housekeeping and non-housekeeping cottages are available offering the conveniences of your own home.

SEASON

Late June to Mid-September. Special rates for children, for those staying two or more months, and for post-Labor Day vacations.

Our 85th season of providing for the vacationist, the fisherman, the camera enthusiast and those who like the great outdoors combined with comfortable living. Modern accommodations with all conveniences in cottages or in main lodge. Strictly American plan with hotel service. For information, colored slides, rates and local references please write—

WILSONS ON MOOSEHEAD LAKE MOOSEHEAD, MAINE

From Greenville also lake boats travel to various resort centers on the lake. Opposite Rockwood and West Outlet, Kineo Mountain rises sheer from the heart of the lake. A beautiful resort spot, it is the largest mass of hornblende in the world and Indian implements and weapons made from its flint have been found as far west as the Mississippi. A few miles southeast of Greenville, on Little Wilson Stream, a fifty-seven foot falls in a sheer slate canyon makes one of the most impressive cascades in the State. Big Squaw Mountain, near Greenville Junction, is easily climbed and affords a magnificent view of the entire area. East and West Outlet, Rockwood and Seboomook, all on the western shore of the lake, are renowned vacation and resort centers.

Lily Bay is almost a lake in itself and is separated from the main lake by Sugar Island. It is a fishing center of high repute and many record salmon and trout are taken each year. Spencer Narrows farther up the east shore from Lily Bay are at the entrance to Spencer Bay, at the head of which is Spencer Mountain and nearby Spencer Pond, always favorite fishing waters and an area full of game. Kokadjo, on beautiful Kokadjo Lake is the center of a fly-fishing area embracing 23 ponds and numerous streams. Further on is Ripogenus Dam, 92 feet high at the head of West Branch Gorge. At the foot of Chesuncook Lake, it is a jumping off place for the vast northern area of Piscataquis County, with its trackless forests and lakes

such as Chamberlain, Sourdnhunk, Telos, Webster, Umbazookskus, Allagash, Churchill, Chemquasabamcook, and hundreds of others, both large and small.

Mount Katahdin, in Baxter State Park, is the northern terminus of the Appalachian Trail, which cuts across the northern sections of Piscataquis, Somerset, Franklin and Oxford Counties. It is one of the three highest peaks east of the Rockies and dominates a vast expanse of territory whose lakes and streams are famous among fishermen and whose forest depths outside the park area are among the best hunting grounds in the State. While there are several entrances to this region from the south and east through Millinocket in adjoining Penobscot County, one of the most popular is by the auto road from Ripogenus Dam to Sourdnhunk Stream via Frost Pond and Harrington Lake, thence by trail to Kidney Pond or Daicey and thence by the Hunt Trail to Mount Katahdin.

Over the Appalachian Trail the hiker may visit some of the most beautiful spots in Piscataquis County, the well-marked route being so laid out that nightfall of each day finds the hiker at a camp where he can find good food and a comfortable bed.

South of Greenville is Shirley Mills, a lumbering and farming village and further on is Monson, a village perched high on a slate ridge where slate was quarried for more than 70 years.

Blanchard is a small town off the main route and on this upper end of the Piscataquis River.

The principal towns and villages in the southern part of the county follow the course of the Piscataquis River. Abbot Village, Parkman, Kingsbury and Wellington are small towns in the southwestern corner and are centers for nearby lumbering and farming activi-

ties. Guilford, on both sides of the river, is an active industrial and business community, whose chief manufactures are woolen and wood products. Sangerville also is a woolen center and agricultural village and is the birthplace of Sir Hiram Maxim, inventor of the machine gun, smokeless powder, pumps and other devices.

Dover-Foxcroft, shire town of the county, is the largest in population and is a business and industrial town, with woolen, canning and wood products mills, modern stores, schools, hotels, library and shaded residential streets. It is also the center for the recreational area around Sebec Lake, 13 miles long and one of the original homes of the landlocked salmon in Maine. Here salmon, bass and perch fishing is excellent. Lake Onawa is a gem among Maine lakes, nestled at the foot of Borestone Mountain further north. The villages of Willimantic, Sebec Lake, Bowerbank, Sebec and Greeley's Landing are popular centers around Sebec Lake.

Milo, in whose town limits the outlet of Sebec Lake and Pleasant River join the Piscataquis, is an industrial, lumbering and farming community. Here are farms with high production records. The soil is of a calcareous composition, supporting fine produce, excellent feed for dairy herds and fast-growing timber. The only spool mill of the American Thread Company is located here. Carloads of spools are developed from the vast white birch stands in this area, which is gaining popularity as a fishing and hunting center.

Car shops of the Bangor and Aroostook Railroad are at adjoining Derby, a landscaped and "planned" community "way up in Maine." From Milo a road leads northeast to Lake View, at the foot of Schoodic Lake, noted for its trout fishing and the view of Mount Katahdin in the background.

North from Milo an excellent tarred road leads to Brownville and Brownville Junction, then a gravel road to a good airport and the Katahdin Iron Works. This road opens up a heretofore hard-to-get-to hunting and fishing country of wide renown, including the Big Houston Lake area. The Katahdin Iron Works is the site of an unused mine and smelting mill which at one time worked a bog of iron ore, a variety of hematite, found in the area at the foot of Ore Mountain. De-

posits of pigments and copper and asbestos also have been found here. Some lumbering operations are now carried on there.

Nearby, reached only by trail, is the "Grand Canyon of the East," at what is known as the Gulf on the West Branch of Pleasant River. Here the stream is deeply entrenched in a slate canyon. Water falls, sheer walls, fantastic shapes and unusual rock formations make a scene of surpassing beauty. Trout fishing in the various waters is excellent.

North from this region are Whitecap and Jo-Mary Mountains, the Jo-Mary Lakes and the northern section of Pemadumcook Lake on the West Branch of the Penobscot. The Appalachian Trail traverses this wilderness, which reaches to the southern limits of Baxter State Park and the Katahdin area.

Baxter State Park is a 162,985 acre wild life sanctuary offering opportunities for mountain climbing of every description, for the study of wild life, geology, wild flowers and everything pertaining to the wilderness. Mountain trails, campsites and shelters harmonize with the unspoiled surroundings. It is the most wildly spectacular spot in the Eastern United States.

ANDROSCOGGIN *County*

S MALL in area, but important for its industries, agriculture and convenience of recreation facilities, Androscoggin County is located in the inland heart of South Central Maine.

Its twin cities, Lewiston and Auburn, on opposite banks of the Androscoggin River, form a commercial population and travel center for a

wide area in that section of the State that makes them second only to Greater Portland in size and economic importance. The

twin cities have been called the "industrial heart" of Maine, for they contain the greatest concentration of shoe and textile mills in the State. In normal years these two activities rank second and third, respectively in the State's industrial economy.

Auburn, on the west bank of the river, is the shire town of the county and fourth largest city in the State. It has nearly a score of shoe factories, has extensive residential sections with many fine old homes and state-ly mansions and is the trading center for a rich farming area. It is a busy city with outstanding schools, an excellent public library founded by Andrew Carnegie, and an exemplary civic consciousness manifested by such citizens' groups as an active Chamber of Commerce, service clubs, agricultural organizations and others.

The Androscoggin Historical Society, which houses its reminders of pioneers in the courthouse at Auburn, has been established for many years and is steadily increasing its collection of valuable historical material. Auburn also is a supply center for sports goods of all kinds and is a favorite stopping and shopping place for

many out-of-state sportsmen on their way to the better known hunting and fishing sections.

Lewiston cotton and woolen textile mills give employment to thousands of people and provide a payroll on which the industrial prosperity of the city depends. It is the second largest city in Maine and is adequately equipped with good hotels, theaters, excellent department stores and other facilities usually found in a large commercial and industrial center.

Lewiston also is the home of Bates College, with an enrollment in normal years of nearly 700 students, and with a large registration for summer school courses. For more than three-quarters of a century Bates has been known best for the educators it has trained for service all over the world. Nearly half of its alumni are in the teaching profession and it ranks first among New England Colleges in the number of its graduates who are principals of New England secondary schools. Since the turn of the century it has been a pioneer in intercollegiate and international debating, achieving enviable honors year after year. Its beautiful campus spreads over 75 level acres on which 26 buildings, mostly ivy-clad, stand amid shady elms, maples, lawns and gardens. A short walk from the campus leads to the summit of Mt. David, which commands panoramas of Bates, Lewiston-Auburn and the White Mountains more than 50 miles to the west.

Other outstanding buildings in Lewiston are the Sts. Peter and Paul Church, a massive, Gothic, cathedral-like structure built principally of Maine Granite; Kora Shrine Temple with Harry Cochrane's famous Palestine murals; and the Lewiston Armory, seating 6,000 persons, which is used for large conventions, assemblies and sport events.

Lewiston Falls and Dam, viewed from the North Bridge, the main artery connecting Lewiston and Auburn, provides a spectacular sight during Spring months. The granite dam increases the 40-foot natural

(Continued on Page 68)

fall of the river here by more than ten feet and diverts water into a mile-long canal supplying the various textile mills.

Both Lewiston and Auburn are constantly developing their parks and playgrounds and nearby golf courses, lakes and winter sports areas offer varied recreational facilities. Recent stocking has provided Lake Auburn, on the northern outskirts of the city, with square-tails, brown trout and perch, while many excellent nearby brooks provide good trout fishing. Taylor Pond, just west of Auburn, and Sabattus Pond, east of Lewiston, are favorite swimming, cottage and boating spots for twin-city residents.

In Western Androscoggin County is the famous lake and resort area of Poland Spring, capped by the world-renowned Poland Spring Hotels. The Mansion House and Poland Spring House stand at the top of Ricker Hill, which commands a broad panorama of hills and lakes. The sunsets from Ricker Hill are one of the most beautiful sights in Maine. Grouped about the base of the hill, which has a world-famous golf course, are the five Range Ponds, with excellent fishing, boating and bathing facilities. Poland Spring also is the home of Poland water, which is shipped all over the world. The Spring House, with its gleaming marble and spotless metal interior, is visited annually by thousands of people.

Beyond Poland Spring are Tripp Lake and the southern end of Thompson Lake, which stretches into

Cumberland and Oxford Counties. Both are popular resort and tourist centers, with excellent boating, fishing, hunting and water sports facilities.

Dairying, poultry raising, canning crops, apples and potatoes are the chief agricultural activities of Androscoggin County. Canning factories are located at Auburn, Poland, West Minot, Livermore Falls and Leeds. Turner, Turner Center, Durham and Greene also are centers of farming areas based on livestock, vegetables and orcharding.

Livermore and Livermore Falls, at the northern tip of the county, are agricultural and industrial centers, the latter having one of the largest paper mills in Maine, a famous foundry, a glove factory and a large cannery, besides numerous commercial establishments. Numerous small ponds and streams dot the area.

Lisbon and its business center, Lisbon Falls, is the site of the Worumbo Manufacturing Company, long famous for its men's coatings and other fine fabrics, a linoleum factory, and lumber mills. Mechanic Falls, on the western side of the county, is a commercial center for a pond and stream area and has several wood products plants.

The area of eastern Androscoggin County, reached through Wales, Webster, Sabattus, Greene, Leeds and East Livermore, adjoins the famous Kennebec Lakes Region and all of its streams, ponds and lakes including Androscoggin Lake, are well-known to fishermen, cottagers and vacationers.

The Mansion House

THREE famous lake regions, beautifully situated in a country of wooded, rolling hills and fertile farmlands on both sides of the majestic Kennebec River, are distinctive features of one of Maine's most attractive counties, Kennebec. Site of the State Capitol, Augusta, and covered with historic landmarks that played their part in the struggles of a young nation, Kennebec has been called the very heart of the Nation's Vacationland.

The City of Augusta occupies a large area on both sides of the river, whose sloping banks contain several picturesque parks and many historic shrines and monuments. The dome of the Capitol, the main structure built of Hallowell granite, rising above the tops of majestic oaks and elms, is visible for many miles up and down the river.

On the eastern bank of the river is historic Fort Western, built in 1754 as a protection against the Indians and recently restored as an historic shrine. The Kennebec Dam, north of the new toll (10 cents) bridge across the river, supplies hydro-electric power for the city and its manufacturers.

Both the State House with its Hall of Flags and State Library and the Blaine House, residence of the Governor, are open to the public. Other points of interest include Lithgow Library, with an important collection of volumes and early Americana; Camp Keyes and the Augusta Airport on a high, treeless plateau nearly a square mile in area, from which a sweeping panorama of the countryside is obtained; and Ganeston Park of 475 wooded acres, where hiking, riding, picnicking and winter sports are enjoyed in the midst of a State Game Preserve and Bird Sanctuary.

On the western bank of the Kennebec below Augusta are Hallowell and Gardiner, with the neighboring town of Farmingdale. These are active industrial and shopping centers, with beautiful old homes and estates harking back to the days when sailing vessels by the hundreds carried the name of the Kennebec region to

all parts of the world. Into the towns below Augusta lead roads from the southwestern corner of the county, where the towns of Litchfield and West Gardiner are centers of a farming and small lakes region containing summer camps and fishing, boating and vacationing facilities.

Directly west of Augusta is the famous Winthrop Lakes region, comprising some 200 square miles of rolling, farm-dotted landscapes, which nature has filled with shimmering lakes and ponds, twenty of them joined by a network of murmuring streams. Larger lakes in this region include Cobboseecontee, Annabesacook and Maranacook in the towns of Monmouth, Winthrop, Manchester, West Gardiner and Readfield.

One town alone, Winthrop, has twelve lakes and ponds within its confines or on its borders.

Against the western edge of Kennebec County lies Androscoggin Lake, overlooked by Morrison Heights, in the town of Wayne, from which a broad panorama for many miles is obtainable. A host of other smaller lakes, almost too numerous to list, sing their captivating names to the visitor. Romantic Echo Lake, Flying Pond and Parker Pond, beautiful Torsey Pond, historic Cochnewagan, Tacoma, Pocasset, Minnehonk, Little "Cobbossee" lakes, along with Lovejoy, Dexter, Berry, Wilson, Horseshoe, Pleasant, Sanborn, Jamies, Shed, Carleton and Narrow Ponds, all share in the scenic glories of the Winthrop Lakes Region. BELGRADE LAKES, MAINE

Winter address: Waterville, Maine — Tel. TRinity 2-8461

Hill, Fayette, Mount Vernon and Vienna, all in the northwestern part of the county, are shopping and business centers for their rich agricultural, recreational and lumbering region.

North of Augusta, through the towns of Sidney, Belgrade, Oakland and Rome is the famous Belgrade Lakes Region with five of the seven lakes of the chain inside Kennebec County. Great Lake is the largest, spreading out at the center of the group. Around it are the other isle-dotted lakes, including Long, Salmon, Magrath, East and Messalonskee.

The Belgrade Lakes Region has long been famous for its smallmouthed bass fishing and the size and quantity of these gamy fish make these waters a topic of conversation among the Nation's anglers. Native

landlocked salmon and trout and other lake and stream fish make good catches commonplace.

Within easy motoring distance of the shopping centers at Waterville and Augusta, the Belgrade Lakes region offers a wide range of accommodations from smart hotels and camps to simple housekeeping cottages.

Waterville, in Northern Kennebec County, is an elm-shaded city of homes, large industries and a modern commercial center. It is a city rich in historic associations dating back to the time when the Indians had a village there and across the river in Winslow. It is also the site of Colby College, established in 1818, which has been relocated on a beautiful 500-acre campus on Mayflower Hill.

LOOK
FOR

THIS
SIGN

Modern hotels, department stores, theaters and other urban facilities make Waterville a convenient shopping place for the traveling public and from it main highways radiate to the surrounding section of the State. Textiles, lumber, fiber board and garments predominate in its industrial activities. Northeast of Waterville are the farming centers of Winslow, Albion, Benton and Clinton, all in an area where wooded hills and many streams are conducive to good hunting and fishing.

In Eastern Kennebec County is the China Lake area, containing the towns of Vassalboro, with the famous Oak Grove Seminary for Girls and the Natanis Wild Life Sanctuary; China, Windsor, Chelsea, Randolph and Pittston.

Two and a half miles below Randolph, on the Wasscasset Road, a bronze marker designates the site of Major Coburn's shipyard, where were built the boats used by Benedict Arnold in his famous march to Quebec.

China Lake is the largest of this chain of lakes and ponds and contains some of Maine's most beautiful landlocked salmon and small mouth black bass. Three Mile Pond and Webber Pond, smaller but none the less beautiful, peacefully ripple in the woodlands on this coastal side of the Kennebec.

Thus, with its three great lakes regions, the Belgrades, Winthrops and China, and its location on the mighty Kennebec River, with a host of tributary streams, Kennebec County justifies its title of "The Heart of Vacationland." The extensive scope of its accommodations, its excellent roads and its highly-developed recreational facilities make Kennebec truly the County of Vacations.

Maine Invites You

SAGADAHOC COUNTY

SAGADAHOC *County*

SAGADAHOC COUNTY, next eastward along the coast from Cumberland County, is the smallest in area in the State, yet it is somewhat typical of Maine coastal counties from here on eastward, which feature rugged peninsulas jutting far out into the coastal sea area, with many inlets and innumerable small bays

and harbors where yachts and other motor and sailing craft find snug havens.

The central portion of Sagadahoc County contains Merrymeeting Bay, so named because it is the junction of the Kennebec, Androscoggin, Cathance, Abagadassett and Eastern Rivers. It is world-famous for its duck hunting and water-fowling.

Along the shores of Merrymeeting Bay are hundreds of cottages, farms and summer homes where vacationers and duck hunters annually visit for sport and re-

laxation. West and north of the Bay are the farming towns and shopping centers of Topsham, Bowdoin, Bowdoinham and Richmond and the industrial town of Pejepscot, with a large pulp and paper mill. Bowdoinham, in the center of the Merrymeeting Bay Area, is a popular rendezvous for sportsmen and a trading center.

The City of Bath, further south along the Kennebec, is famous as the site of the Bath Iron Works, whose destroyers rate among the best in the service of the U. S. Navy. Famous yachts, fishing boats and other craft built in peacetime years have made the name of this company famous throughout the shipbuilding world. Bath is also a commercial and business center for the county and roads lead from it down to the many resorts and vacation centers along the coast on both sides of the mouth of the Kennebec.

Dot and Gene Winslow

SEBASCO ESTATES • MAINE

Route 209 below Bath passes through Winnegance, a suburb of Bath, where a tide mill until recent years was used to power a lumber mill. Phippsburg is a village center for a picturesque area of rugged coast, sand dunes and wooded knolls. From it lead the roads to the Sebasco Estates, West Point, Small Point, Parker Head and Popham Beach.

This whole area is a favorite picnicking and vacationing territory, rich in early American history and before that a favorite summering place of the Indians, who left many of their relics scattered around. Boating, bathing, and deep sea fishing combine with golfing, riding and other land sports to make this section an attractive resort area. The remnants of old forts and the earliest of American settlements at the mouth of the Kennebec add to the historic interest of the region.

From Woolwich, across the river from Bath, Route 127 runs down across a group of heavily wooded islands forming the eastern side of the mouth of the Kennebec and with Sheepscot Bay and River on its easterly side. Here are Arrowsic, Georgetown, Five Islands and Robinhood, small farming and fishing villages with many cottages and shore outing spots where small boats put in from the neighboring coastal region.

At Georgetown is the new Reid State Park. Major features are picnic areas, bath houses, Mile Beach and a six-acre impounded salt water lagoon, suitable for bathing and canoeing, in the Griffith's Head area.

Phipps Point, overlooking beautiful Hockamock Bay,

is the site of numerous fine summer homes. It was the birthplace of the great adventurer for whom it was named. Sir William Phipps was at one time Provincial Governor and was the first American knighted at the English court in recognition for having brought treasure taken from old Spanish galleons sunk in the Caribbean Sea.

Many small islands, some of them privately-owned, lie off this section of the coast and numerous artists and sculptors of note annually summer in this region. Five Islands has an excellent harbor and has been the frequent rendezvous of the Boston and other yacht clubs. Bay Point and MacMahan Island also are favorites of summer visitors.

MAINE, THE CONVENTION STATE

More and more, convention planners are discovering Maine as the ideal place to hold their annual convclave.

With literally thousands of locations and accommodations to choose from, the small convention group can find comfortable surroundings amidst relaxing atmosphere almost anywhere in the State and the larger groups can choose from most any of the 21 cities and many of larger communities and resort areas.

Why not plan to make Maine your convention site for next year?

STATE OF MAINE PUBLICITY BUREAU

922 Gateway Circle

Portland, Maine

MAINE CLIMATE MOST HEALTHFUL IN NATION

The U. S. Department of Commerce, Weather Bureau annual meteorological summary, says "Maine has the most healthful climate in the United States and equals any in the world, not only in the summer but also, contrary to popular belief, in the winter.

"Sunshine averages close to 60 per cent for the year and monthly averages vary little during the changes of seasons. Frequently the winter has more sunshiny days than the summer.

"It is a fact that southern Maine has more actual hours of sunshine during the summer months of June, July, August and September than the famous winter resorts of Florida, Georgia, Texas and California have during the winter months of November, December, January and February.

"Vitamin 'D' has been recognized as being very necessary to invalids or convalescent patients. Maine's sunshine and large number of crystal clear days assure residents of large quantities of vitamin 'D' and ultra-violet rays to insure good health."

FRANKLIN COUNTY

(Continued from Page 51)

the northern side of Rangeley Lake to Mountain View, Oquossoc, Haines Landing, Bald Mountain, Barker and Mooselookmeguntic Lake. South on Route 17 from Oquossoc is the "Height of Land," where a roadside outlook provides one of the most extensive panoramic views in the entire State, overlooking Mooselookmeguntic and two other lakes of the Rangeley Chain, as well as embracing the mountain peaks of Maine's north-west boundary corner with New Hampshire and Canada. From Oquossoc Route 16 traverses Northern Oxford County to Wilson's Mills at the western side of this magnificent recreational area. Like Northern Oxford County, this northern side of Franklin County is a wonderland of lakes, streams and mountains with nothing but trails and woods roads once the vacationer leaves the paved highways.

In spite of its wilderness appeal, the region is well spotted with camps, lodges, summer resorts, hotels and other modern conveniences. In addition to the seaplane base, a Class One airport at Rangeley brings in vacationers and private planes. State fish hatcheries breed salmon and trout at Oquossoc and the Rangeley Game Preserve covers many hundreds of acres assuring a constant supply of game to the surrounding areas.

The log cabin style of summer hotel life was born in this region, with comfortable camps containing fireplaces, baths, housekeeping service and other details, such as central dining rooms, libraries, group entertainment, etc.

From its rich agricultural areas and thriving industrial activities to its wonderland of recreational features, Franklin County has long been one of the outstanding and most attractive areas in Maine for visitor and resident alike.

One of Maine's Most Beautiful Seacoast Resorts

In writing to advertiser

WITH its coastal terrain jutting lacy fingers of wooded headlands and islands into the Atlantic and its inland regions composed of rolling farm lands and pine and spruce bordered lakes and streams, Lincoln County has become one of Maine's best known vacationing areas.

In early times one of the favorite locales of Indians, traders, settlers and pirates, its coastal towns and in-

land lakes are today the goal of thousands of summer visitors and vacationers, many of whom own their own cottages and camps, and nearly all of whom return year after year to the bracing coastal spots or the canoeing and fishing relaxation of the lakes and small rivers.

From U. S. Route One, which cuts across the county from Wiscasset to Waldoboro, a network of excellent roads leads both to the coastal villages and resorts and northward through a farming and lake country where streams, brooks and ponds cut through the dense forests.

Wiscasset, on the westerly edge of the county, is the shire town and lies on the west bank of the wide Sheepscot River. Its beautiful old homes, mostly built by

old tide mill between the bay and the mill pond is still in use. This pleasant little village has long been famous for the many pleasure yachts, fishing vessels and naval craft built by local craftsmen in the many boat yards of the region.

Squirrel Island is one of the oldest resorts in this section and is the summer home of college professors and others nationally known in literature, the arts and business. Another island off shore is Damariscove and ten miles out is Maine's famed Monhegan Island. The island was discovered by Captain John Smith in 1614 and the many moods of this magnificent sentinel have long been a challenge to authors, poets and painters. Three unusual cliff formations are among the features of the island. It is an active year-round lobstering community and a quiet friendly summer resort.

The U. S. Fish Hatchery and Aquarium is located outside of Boothbay Harbor at McKown's Point and is visited annually by thousands of tourists. Propagation and conservation work of the Maine Department of Sea and Shore Fisheries also is carried on at Boothbay Harbor.

Westport is the largest of the islands in Sheepscot Bay on the Sagadahoc side of the county and is connected with the mainland by a new bridge.

The wide Damariscotta River, one of the most beautiful tidewater rivers in Maine, virtually bisects the county from north to south and leads into big Damariscotta Lake, widely known for its splendid sporting

camp and camps for boys and girls patronized by groups from many states. Served by the towns of Nobleboro and Jefferson, this lake area is one of the most attractive in Maine and is a favorite with residents of the shore areas to the south. All of Lincoln County's lakes and ponds are popular spots for bass, salmon and trout fishing.

The twin towns of Newcastle and Damariscotta furnish the shopping and banking center of the county. Both are pleasant little villages of many fine homes and unusual historical aspects and both are centers of small boat building. Here also each Spring may be seen the annual run of the alewives, when tens of thousands of the fish fight their way up the river to the spawning grounds in the Damariscotta Lake region. Nearby are the famous Indian shell heaps, where successive generations of Indians tossed the shells from their summer encampments.

South from Damariscotta roads lead to the eastern area of Lincoln County jutting out to sea. One road branches to Walpole, South Bristol and Christmas Cove, so named by Capt. John Smith in 1614. Another leads past Pemaquid and Biscay Ponds to the shores of Muscongus Bay and Pemaquid Point. Pemaquid, Pemaquid Beach, New Harbor and Pemaquid Point, all in the town of Bristol, are little fishing and resort villages on one of the boldest headlands on the coast. The old round fort at Pemaquid Beach, a reproduction of the tower of Fort William Henry and the fine old fort

KNOX COUNTY

KNOX County

MOUNTAINS, lakes and seacoast, plus its location on the western side of Penobscot Bay, Maine's maritime scenic wonderland, give Knox County the natural advantages which have made it for many years a favorite resort area for vacationers and tourists.

Along its broken shoreline, studded with innumerable coves, bays and inlets and on the many large islands standing well out into broad Penobscot Bay, the large summer estates of famous families and modern hotels look out upon the picturesque fishing villages, neat homes and cozy cottages of a year-round and summer population that has come to love that section of the State with an attachment that only close association with nature's wonders can bring.

Knox County is rich, too, in its historical interests, for here generations of farming and fishing folks are

rooted, as well as the descendants of sailing and shipping families who still keep the traditions and mementoes of a day when the clipper ship and the schooner ruled the waves.

U. S. Route No. One enters Knox County from Waldoboro and from it branch many excellent lateral roads curving scenically through tall stands of pine and spruce to the coastal resorts and past rolling fields and meadows into the farming and lake regions.

From Waldoboro and South Warren, Routes 220 and 97 traverse the peninsula formed by Muscongus Bay and the Georges River, leading to the resort areas and islands of Friendship and Cushing. Cushing has many summer cottages along the Georges River, which here is an inlet by the sea, and many interesting Indian relics are found annually.

Friendship is one of the most charming unspoiled seaport towns in Maine, the birthplace of the famous Friendship sloop and the home of typical coastal people. Deep sea fishing, casting and trolling for the various salt water species, such as mackerel, cunner, pollock and silver hake, shore clambakes and picnics are popular pastimes.

Warren, the center of a fine farming region, is also

an interesting small industrial community. Thomaston is noted historically as the home of General Henry Knox, Washington's chief of staff and Secretary of War, and a reproduction of his beautiful mansion, Montpelier, is one of the show places of Maine and open to the public. Thomaston also is the site of the largest cement and limestone plant in New England.

Rockland is the shire city and trading center for the county, with modern hotels, stores and banks. Its fine harbor is the port of call for all kinds of craft and from it steamers ply between the mainland and the islands in Penobscot Bay. Fishing, shipbuilding, shipping and limestone quarrying are important in its industrial activities. Here, too is the birthplace of the late Edna St. Vincent Millay and a cultural and civic consciousness among the residents that finds expression in numerous clubs, societies and organizations. During the war it was an important center of Coast Guard activity.

At Rockland is new Farnsworth Art Museum, with a year-round schedule of exhibits and programs adding greatly to the historic lore and culture of the area. Here also is held the annual Maine Seafoods Festival.

From Rockland and Thomaston main highways lead southward to the shore areas fronting on the southwestward side of Penobscot Bay, a resort area containing outstanding hotels, summer estates, cottages and fishing villages. Owl's Head, South Thomaston, Spruce Head, St. George, Long Cove, Tenants Harbor and Port Clyde are picturesque fishing and resort villages in the coves and inlets along the shore and small boats ply between them and the islands off shore.

North of Rockland is Glen Cove, another vacationing center, and Rockport, with a V-shaped waterfront on Goose River that has been landscaped by Mrs. Mary Louise Zimbalist.

North of Rockport is Camden, one of the loveliest of all Maine coastal towns, where towering mountains rise almost from the ocean's edge to a height of more than 1,500 feet. These Camden Hills, Mount Battie,

Maine Invites You

KNOX COUNTY

MAINE TEMPERATURE

The average temperature during the daytime periods of July, August and September is about 70 degrees—sometimes it runs well up into the eighties, with ninety degrees on an average of three times a year, according to weather bureau records.

It always cools off after the sun goes down and there is scarcely a night that one or two blankets are not needed even in the summer.

Megunticook, Bald and Ragged, were marvelled at by Champlain and Capt. John Smith because of their beautiful setting on the shores of Penobscot Bay. Here a State Park recreation area has been developed, containing picnic and camping sites, nature trails and ski trails. Citizens of Camden started this development with the Camden Bowl, in which events are held both Summer and Winter. Eventual size of the park will be nearly 6,000 acres between Lake Megunticook and the seashore. The Sagamore Picnic Area, just off Route No. One and on the seashore contains 20 acres and already is rated as one of the finest in New England.

Not only have the year-round and summer residents of Camden taken particular interest in landscaping, both in the town and along the surrounding shore and countryside but in the Summer baskets of flowers decorate the lampposts in the business section and create an atmosphere of beauty and charm that is found nowhere else in the world. A notable group of musicians also make their summer homes in Camden and the beautiful Bok Amphitheater, seating 1,500 persons in a landscaped setting of trees, shrubs and plants and the remodelling and redecorating of the Camden Opera House, also have been special projects of Mrs. Zimbalist.

Among the larger islands in Penobscot Bay reached by boat from Rockland and other Knox County towns are North Haven and Vinalhaven, both fashionable resort islands, Matinicus and Criehaven, whose primitive charm are well-known to lovers of nature.

Inland Knox County, with its network of lakes, streams and farmlands, contains the towns of Union, Washington, Appleton and Hope. Here are farming and orcharding communities in a region of lakes, streams and mountains, with excellent fishing, canoeing, hiking and mountain climbing. Appleton is the center of the apple region and also has a State Fish Rearing Station. Megunticook Lake, Crawford Pond, Seven Tree Pond, Sennebec Lake and Washington Pond are but a few of the many bodies of water that dot this area like gems.

ROGER P. SONNABEND

ON the western shores of Penobscot Bay and the mouth of the Penobscot River, stretching from the blue Camden Hills to the head of ice-free winter navigation at Winterport, Waldo County in south central Maine comprises an area of 749 square miles extending back into an inland farm and lake country bordered by

Knox, Lincoln, Kennebec, Somerset and Penobscot Counties.

Focal point in the county is the City of Belfast, a famous seaport town and hub of a network of roads radiating to all sections of the county. On the seaward side, Belfast is likewise a hub for small boat traffic from the islands to the east and southeast in Penobscot Bay and thus serves as a shopping and commercial center for an area within a great land and sea circle from the city center.

Along the shores of the bay and river are a series of other seaport, fishing and resort towns, while back from the coast is a large farming, lake and mountain region, where apples, potatoes, vegetable raising, poultry farming and dairying combine with lumbering and resort activities to provide a healthy, economic livelihood for Waldo County residents. Its shoreside quarries have provided granite for paving blocks and buildings in some of the largest cities of the Country.

U. S. Route One enters Waldo County from Camden, skirting the shore through Lincolnville and Northport, both favorite resort towns for surrounding areas. From Lincolnville a ferry services Islesboro, largest island on this section of the coast with an exclusive summer colony and yachting center that make it the richest town in the county. An auxiliary road from Camden, Route 137, follows the northern side of Megunticook Lake to Lincolnville Center and Belfast, passing through a beautiful countryside area.

Belfast is situated on a side-hill sloping gradually to the shores of Belfast Bay and the Passagassawaukag River, its highest point commanding a sweeping view over the island-studded waters of Penobscot Bay. Many fine old mansions sheltered by stately trees re-

Maine Invites You

WALDO COUNTY

call the days of past mercantile and seafaring glory. A 15-acre city park is directly on the shores of the Bay and has modern facilities for trailers, camping, swimming and other activities. The city's excellent hotels and shopping facilities, its quiet streets and nearness to all forms of recreational opportunities make it a center for visitors in this section of the State.

Belfast also is the southern terminus of the famous Belfast-Moosehead Lake Railroad, bisecting the county to Burnham Junction, where it connects with the Maine Central Railroad. New shoe factories now are important to the economic stream of the area. The important poultry industry in this section is highlighted by an annual Maine Broiler Day. Belfast, one of the centers of the State's rapidly growing broiler industry has become known as the "Broiler Capital of Maine."

North of Belfast is Searsport, home of many sea captains and ocean shipping point for the Bangor and Aroostook Railroad. Its wartime shipping record has been important. Here also is the Penobscot Marine Museum, the most valuable of its kind in the State.

Stockton Springs, with its nearby Fort Point, a charming retreat for tourists, and Prospect, on the western approach to the Waldo-Hancock Bridge over the Penobscot, are village centers for nearby summer estates and resorts. Near prospect is Fort Knox, a massive structure of Mt. Waldo granite, commanding one of the most beautiful views on the Penobscot River. On the road to Frankfort are the surface quarries of Mt. Waldo, where countless tons of fine granite have been cut out of the mountainside. Frankfort is a riverside town, once an important seaport, overshadowed by Mt. Waldo, from whence has come much of the finely-polished granite for government buildings in Washington, New York's Church of St. John the Divine and Boston's New England Mutual Building, to name only a few.

Winterport is an historic town of many fine homes, including the Blaisdell homestead, built in 1789 and designed by Christopher Wren, famous English architect. As the head of winter navigation on the Penobscot it was once an important shipbuilding community and

seaport and these activities still are carried on to a limited extent.

One of the main roads leading into Belfast from the west is Route 3 from Augusta. This traverses the Waldo County towns of Palermo, Montville, Liberty, Searsmont and Belmont. Belmont's Tilden Pond is a popular summer resort, while Lake Quantabacook between Searsmont and North Searsmont offers many cottages and charming scenery in every direction. Nearby is the country home of the late Ben Ames Williams where he wrote many of his famous novels. Liberty, on Georges Lake, is the site of the 5,310-acre St. George State Park, located also in adjoining Montville. Palermo is near Sheepscoot Lake, making it an ideal place to fish, rest and enjoy life in the open.

Waldo, Brooks, Knox, Morrill, Freedom, Thorndike, Unity, Troy and Burnham are on Route 137 and connecting roads and in an area serviced by the historic and unique Belfast and Moosehead Lake Railroad. All are inland towns that have rivers, lakes, streams and groves that appeal to those in search of recreation and rest. Unity Lake is one of the best black bass and brown trout fishing waters in this section of Maine.

Swanville is located on Swan Lake, noted for its salmon fishing and offers fine accommodations for tourists. Monroe and Jackson are farming and lumbering communities where tourists may rest at farm homes and enjoy the delicious foods that Maine women always seem to know how to cook best.

Mrs. Joseph H. Cooney

IT was inevitable in the scheme of things that when the scenic wonderland that is the State of Maine was fashioned, there would be one region that would stand out above all others in majesty and beauty. Such has been the tribute accorded to Hancock County.

Capped by the wild grandeur of Mount Desert Island, termed by Henry Van Dyke "the most beautiful island in the world," this far-flung coastal area of islands, bays, beaches and bold headlands reaching from Castine on Penobscot Bay to Schoodic Point on the east for nearly a century has drawn thousands of summer visitors from all parts of the world.

This archipelago of islands, island-sheltered waterways and lake-like bays presents a panorama of majestic beauty and infinite scenic variety that defies descrip-

tion. On Mount Desert Island alone eighteen beautiful mountains literally rise out of the sea, with twenty-six lakes and ponds in the valleys between. On all sides evergreen forests stretch to the sea, or to the sheer cliffs where the sometimes wild surf flings ocean spray high into the air. In its center deep Somes Sound forms the only natural fjord on the whole Atlantic Coast.

Twenty-two square miles of Mount Desert and Schoodic Point, across the entrance to Frenchman's Bay, form famous Acadia National Park, the first National Park east of the Mississippi and the only one on the coast north of Florida. Land and sea, woodland, lake and mountain—all are represented here in remarkable concentration. It has become the home of land and water birds of many species and deer and beaver have become numerous and are often in evidence.

Motor roads of great beauty traverse the park and surrounding areas and connect with Bar Harbor on the North and Seal Harbor and Northeast Harbor, resorts on the southern shore. Rising from the Bar Harbor road, a marvel of highway engineering winds a hard-

surfaced road to the summit of Cadillac Mountain (1,528), the highest point on the eastern coast, where a parking overlook commands a breath-taking view of the surrounding ocean, islands and countryside.

Free camping grounds, a nature guide service with varied daily programs, museums such as at Sieur de Monts Spring and at Islesford on Little Cranberry Island, and adequate information facilities are but a few of the many aids to the visitor and tourist. Outside of the park area, at Bar Harbor and the various villages on the island, such as Seal Harbor, Northeast Harbor, Southwest Harbor, Somesville, Manset, Seawall, McKinley, Tremont, Bernard, West Tremont, Seal Cove, Center and Pretty Marsh are accommodations ranging from high-class summer hotels to rooming houses, cottages and restaurants.

Schoodic Point, a part of Acadia National Park although across the entrance to Frenchman's Bay, juts further into the open sea than any other point of mainland on the Atlantic Coast. From it a magnificent rock headland rises over 400 feet, commanding an unbroken view eastward to the Bay of Fundy and westward to the Mount Desert Mountains. Schoodic Point is reached from the delightful resort towns of Winter Harbor, Birch Harbor and Prospect Harbor on a scenic state and park road that follows the shoreline.

Ellsworth is the shire town and trading center for Hancock County and the railroad terminus for Bar Harbor and other Mount Desert Island resorts. From it excellent roads lead to all parts of the county. It is a city of gracious old homes and attractive modern business buildings, many of the latter built after the great fire in 1933 which wiped out the Main Street section. Union River flows through the center of the city and from the bridge a 60-foot falls is visible.

One of Ellsworth's show places open to the public is the famous Black Mansion, with priceless colonial antiques and furniture, rare books, dishes and glassware. It was donated to the county as an historic shrine and summer teas are held in the gardens.

From Ellsworth Route 172 leads through the picturesque village of Surry to beautiful Bluehill, home of the famous Rowantrees Pottery and birthplace of Mary Ellen Chase; thence to Bluehill Falls with its Indian

Shell Heaps, and to Brooklin, Sedgwick and Sargentville to Deer Isle and Stonington. This trip loops around one of the most beautiful and interesting jagged peninsulas on the Maine coast, skirting lovely Bluehill Bay. It is an unspoiled summer resort area with many fine summer estates and cottages. Deer Isle and Stonington are special favorites of tourists and summer residents because of their primitive beauty and scenic charms, as is also Long Island in Bluehill Bay.

Along Eggemoggin Reach and the Penobscot Bay side of the Peninsula are Herricks, Cape Rosier, Brooksville, Harborside and Castine, villages with attractive homes and noted as summer resort centers with marvelous views westward across Penobscot Bay. The Brooksvilles, South, West and North are picturesque in their rural simplicity and popular with summer visitors. From the road along Caterpillar Hill, Route 176, is a marvelous panoramic view, westward overlooking Penobscot Bay.

Castine is rich with history and romantic associations through the Indian, French and Revolutionary Wars. Some of its old houses with famous doorways date back as far as 1765. It is the site of the Maine Maritime Academy. Penobscot, North Castine and Orland are attractive villages of historic interest attracting their annual quota of summer visitors. At East Orland, on the shore of Alamoosook Lake is a U. S.

HANCOCK COUNTY

THE ACADIAN LODGE

Winter Harbor, Maine

On the rockbound coast overlooking Frenchman's Bay. Across from Bar Harbor, near Schoodic Point and Acadia Nat'l Park. A delightful informal hotel for discriminating people. Salt and fresh water fishing, fun and relaxation with indoor and outdoor amusements. Best of food excellently prepared. Specializing in memorable holidays and honeymoons. 600 acres of woodland. Moderate rates. American Plan. Catering to special dinner parties. Endorsed by Duncan Hines
Season June 11 to Sept. 17 Telephone: Winter Harbor 111 Ownership-management, MRS. ROBERT GORDON FERGUSON

Fish Hatchery for the propagation of salmon and trout, with which the lakes of Hancock County abound.

Bucksport, on the east bank of the Penobscot opposite Prospect, is the site of the Maine Seaboard Paper Company, one of the most modern newsprint plants in the world.

Dedham, Otis and Lucerne-in-Maine on Phillips Lake are on the road into Hancock County from Bangor, traversing lake and stream territory which includes Branch and Green Lakes, both popular fishing and boating areas.

East from Ellsworth are Trenton, Lamoine, Hancock, Sullivan, Sorrento and Gouldsboro, all along the shores of Frenchman's Bay and famous as fishing and resort centers.

North of Ellsworth roads lead to an extensive inland lake region which includes Graham, Spectacle, Naticus and a host of lesser lakes and ponds interlaced with streams and brooks where sportsmen can find more than enough of bass, pickerel, trout and landlocked salmon. This area is served by such towns and villages as Franklin, Eastbrook, Waltham, Mariaville, Amherst and Aurora, through which connecting roads open up a large fishing and hunting region that is among the best in the state.

ALWAYS SOMETHING DOING IN MAINE

Your visit to Maine will be even more enjoyable if you plan to take in some of the many special events held each year.

During the Spring and Summer season such activities as Music Festivals and Folk Dances, Country Fairs and Auctions, Art Shows and Crafts Exhibits, Industry Displays, Food Festivals such as the famed Maine Seafoods Festival and the Maine Broiler Day, Historical Observances, 'Straw Hat' Summer Playhouses, Water Pageants, Horse Racing and countless others will be found from one end of the State to the other.

Fall is the time for Autumn Foliage Festivals and Tours, Harvest Feasts, Sulky Racing and Old Time Country Fairs. An active Winter program of Skiing and Winter Carnivals is in progress during the months of December through March.

Anytime is a good time to Come to Maine—you will always be welcome and you always will find something doing in the Pine Tree State.

FRENCHMAN'S BAY LODGE

WINTER HARBOR, MAINE

Enjoy the overwhelming beauty and charm, the delicious food, courteous service, and warm hospitality of Frenchman's Bay Lodge. Situated directly on the shore of beautiful Frenchman's Bay, and surrounded by acres of fragrant spruce and pine, it is an ideal vacation spot. Tennis, golf, fishing, swimming, etc., nearby.

J. MILLER and I. S. FARNSWORTH, Ownership-Management

WASHINGTON County

WASHINGTON COUNTY, on Maine's and the Nation's easternmost border, aptly has been called the Sunrise County of the U. S. A. Although its coastal region was one of the first to be explored and settled in Maine, its 2,628 square miles, consisting mostly of woods, lakes and streams, contain extensive areas where the human foot has but infrequently trod. As a result it contains some of the most notable hunting and fishing territory in the State, with deer, bear, small game and game birds in profusion and sport fish of unusual size up to the king of all rod and reel fighters, the Atlantic salmon.

With an abundance of forest, fisheries, agricultural lands and waterpower, Washington County is an area rich in raw materials and yet with tremendous room

for developments. It is the center of the sardine canning industry in the United States; its broad coastal plains produce enormous quantities of the world's best blueberries. Its fertile soil is the basis for extensive potato, livestock and poultry raising; and lumbering, pulp and paper have been important industries for many decades.

Calais and Eastport are the only cities in the county, which also contains forty-four organized townships.

Calais is situated in the beautiful St. Croix River Valley, with an international bridge across the river to St. Stephen, N. B. Collaboration between the two communities is world-famous, with an interchange of trade, commerce and essential municipal service. Calais is a trading and manufacturing center for the area, as well as a transportation hub. It has several small hotels and tourist homes, fine retail stores and its taps an extensive and famous recreational area of large lakes, forests and streams.

Eastport is the most easterly city in the United States, situated on Moose Island and connected with the mainland by bridge. It is at the entrance to the great Passamaquoddy Bay area, with a large and deep

harbor and has long been known as the center of the sardine canning industry of the United States.

Eastport is also the site of Quoddy Village, headquarters of the famous project to harness the ocean tides for electric power. The tides rise and fall 18 to 27 feet in this area. Dormant for more than ten years, efforts are now being made to revive the giant project as an international undertaking.

Lubec, across the entrance to Cobscook Bay from Eastport, is the most easterly town in the United States and West Quoddy Head Light, at East Lubec, is the most easterly point of land in the Nation. Lubec also is a sardine, fish processing and industrial center, with a fine retail section serving its residential area.

Lubec and Eastport flank the three-mile entrance to Cobscook Bay, a large, sharply indented ocean basin ringed by State Route 189 and U. S. Route One. The distance around the western shores of Cobscook Bay from Lubec to Eastport is some forty miles. For scenic beauty, both Lubec and Eastport are situated where the eye can encompass vast expanses of blue water and islands in Quoddy Bay. From the hilltops are magnificent views of New Brunswick, and across the giant Bay of Fundy, the distant shores of Nova Scotia.

The U. S. Weather Bureau officials rate the summer climate in this area as the finest in the Nation and the winter temperature the same as Boston.

Clockwise on the road-circle from Lubec to Eastport are West Lubec, North Trescott, Whiting, with a famous old church and cemetery; Dennysville, on the swiftly flowing Dennys River, famous for its Atlantic salmon; West Pembroke and Pembroke, with sardine and blueberry canning plants; and Perry, where a stone monument marks the exact midway point between the Equator and North Pole. Offshore in the St. Croix River is St. Croix Island, now an International (Continued on Page 100)

man's Bay, Chandler's Bay, Jonesport, West Jonesport, Beals, Addison, Pleasant Bay, Harrington, Ripley Neck, Milbridge, Wyman on Narraguagus Bay, Pigeon Hill Bay, Petit Manan Point, Dyer Bay, Dyer Neck and Steuben—all are names and places in this entrancing coastal area where lumbering, fishing and the recreational industry are an important means of livelihood in a setting of grandeur and beauty.

Slightly inland the larger towns of Machias, county seat and shopping center, Jonesboro, Centerville, Whitneyville, Columbia Falls, Harrington and Cherryfield are villages on rivers which cut into the coastal plain. Cherryfield, on the Narraguagus River; Harrington on a coastal river and the center of forty-six different trout fishing streams; Columbia Falls, on the Pleasant River; and Whitneyville on the Machias River all are centers for the "king of game fish," the Atlantic salmon.

From Cherryfield starts beautiful "Cherryfield Woods Road," State Route 193, which follows the Narraguagus River north through Deblois to Beddington. Here Route 9 cuts across the center of Washington County from west to east. This is the famous "Air Line" road, well known by deer hunters and fishermen, tapping the Mopang Lakes, Pleasant River, Machias

River, Chain Lakes, Crawford Lake and Pocomoonshine Lakes areas, with their villages of Wesley, Pokey, Crawford, Alexander and Baileyville, where Route 9 joins U. S. Route One between Baring and Woodland.

Cutting across the center of the county, the famous Grand Lakes chain reaching up into Penobscot County contains togue, trout, salmon, pickerel and other gamy fish, making it the Mecca annually for thousands of sportsmen. Connecting Grand Lake and Big Lake is Grand Lake Stream, a three mile stretch of rapid water known to all experienced fishing enthusiasts.

North of Calais is Woodland, site of the St. Croix Paper Company; Princeton, gateway to the Grand Lakes area; Waite and Talmadge, in the heart of a great hunting and fishing area; Topsfield, Brookton, Eaton and Danforth, all on U. S. Route One traversing the northeastern section of the county. Vanceboro is the gateway to the Spednic and Chiputneticook Lakes area.

DEER
BIRDS

PENOBSCOT COUNTY, is a great diversified farming, industrial and recreational county in East Central Maine, bisected by Maine's largest river, the Penobscot, and containing the third largest city in the State, Bangor.

Hub of the County is Bangor, "Queen City" of Maine, and the commercial and financial center for the northern and eastern section of the State. Sixty miles from the sea at beautiful Penobscot Bay, it is the head of ocean navigation on the Penobscot.

The site of Bangor, at the junction of Kenduskeag Stream and the Penobscot, was an important Indian rendezvous before Champlain landed there in 1604 in his search for the fabulous city of Norumbega.

Today Bangor is a beautiful city of modern stores,

hotels and offices, with stately residences on wide, shaded streets and with scenic parks and parkways.

Although Bangor is primarily a commercial center, there are numerous diversified industries both there and across the river in Brewer, the products including pulp, paper, wood products, wood tools, machinery, snowplows, stoves, furnaces, building material, metal products, brick, cigars, fish, meat and agricultural packs, clothing, mattresses, sportsmen's equipment and furs.

The Bangor Salmon Pool, opposite beautiful Grotto Cascade Park with a 45-foot cascade, is known throughout the world.

Southwest and northwest of Bangor main highways fan out into a rolling hill and lake country where fertile farm lands yield rich harvests of potatoes, hay, fruit, poultry, dairy and cannery products. Many towns in this region contain small industries based on wood products, woollens, leather and metal products. Such towns include Hampden, Newburg, Dixmont, Hermon, Carmel, Etna, Plymouth, Glenburn, Kenduskeag, Levant, Stetson, Hudson, Corinth, Exeter, Corinna, Bradford, Charleston, Garland and Dexter. New-

BANGOR

Queen City of the East...

Bangor, the gateway to northern and eastern Maine, is located on the west bank of the Penobscot River only a few miles from the Atlantic Ocean. First settled in 1769, and incorporated as a city in 1834, it has now become a prosperous and progressive community with approximately 32,000 inhabitants. It is served by all methods of modern transportation and has long been recognized as the financial and commercial center for the constantly growing eastern and northern sections of Maine.

Bangor offers exceptional educational advantages, and Bangor's high school ranks with the finest in New England. In addition to the public schools, there are John Baptist high school, parochial, private and commercial schools. The University of Maine is in Orono, eight miles from Bangor.

It is possible to drive by automobile within an hour to many of Maine's beautiful lakes, streams, brooks, mountains, and to the seashore where

recreation awaits all members of your family. Because of the many fine hotels, motels and restaurants within Bangor, it has for many years served as the headquarters of numerous hunting and fishing parties from practically every section of the country.

Bangor is proud of its many fine churches, parks, and theaters; two daily newspapers, morning and evening; three radio stations and two television stations furnishing complete facilities for advertising publicity, and emanation of news.

Bangor, in the heart of Vacationland, invites you to come for a visit or come here to live.

Good Eating

One of the prime delights of a Maine vacation is the enjoyment of Maine home-cooked foods prepared by men and women who have made it their business for years to provide good eating.

Until you have enjoyed the thrill of a real "Down East" meal, whether it be on the seafood or mainland side, you have been missing one of the joys of living known to Maine vacationists for many years.

Whether it be the regal lobster, prepared in any one of a score of delectable ways, or the other products of the coastal fisheries, such as clams, sardines, crab meat, delicious fish species or chowders, or whether it be the inland dishes of fresh meats, salmon, trout, or the other inland fish surrounded by crisp and flavorful Maine vegetables, hot biscuits and other tasteful accessories, your Maine host can place a spread before you that even few kings can today enjoy.

The world's best food, genial hospitality, some of the Nation's most outstanding scenic wonders, ample facilities for every type of vacation—small wonder so many thousands return to Maine year after year.

Bangor, Maine

port, on the western border of the county, is on the shores of Sebasticook Lake, famous for its bass fishing, and is an important resort center as well as a large wood products plant.

Brewer, across the river from Bangor, is the site of the Eastern Manufacturing Company's pulp and paper plant and has numerous lesser industries. Orrington, Holden, Eddington and Clifton, also on the east side of the river are rural centers for agriculture and wood products plants, besides containing several ponds and streams for vacationing.

Immediately north of Bangor are Veazie, Orono, with the 500-acre campus of the University of Maine and Old Town, small manufacturing city and site of the Indian Reservation which is the home of the remaining members of the Penobscot Tribe, a fragment of the once powerful Abnaki Nation.

Northeast of Old Town the towns of Milford, Greenfield, Costigan, Greenbush, Passadumkeag, Lowell, Burlington, Oramon, Enfield and Lincoln lead to many fishing waters and big game sections of eastern Penobscot County and the northern sections of Hancock and Washington counties. From Lincoln Route 6 runs eastward to Vanceboro on the New Brunswick border through Lee, Springfield, Carroll and Topsfield.

Sysladobsis Lake (usually called Lower Dobsis) is reached from Springfield over a good secondary road to the shores of the lake, which is at the northwest end of the famous Grand Lakes chain.

Winn and Mattawamkeag, also on the east side of the Penobscot above Lincoln, are gateways to some of the best bass and trout fishing waterways in the State. In this eastern section of the county are the agricultural and lumbering communities of Prentiss, Drew, Kingman and Webster Plantation.

Northwest of Old Town, on the west side of the big river, are the farming and lumbering communities of Alton, Argyle, LaGrange, Edinburg, Maxfield and Howland. North of Howland is Seboeis on South Branch Lake and a lake, stream and mountain country extending to Seboeis Lake in Piscataquis County. Here also are Woodville and Chester, farming, lumbering and summer camp communities on the west bank of the Penobscot.

From Mattawamkeag Route 157 leads northwest to the lumber, pulp and manufacturing towns of Medway, East Millinocket and Millinocket, where are located the big mills of the Great Northern Paper Company. These towns are also the gateways to Norcross, departure point for the Twin, Pemadumcook, Nahmakanta, Jo-Mary and Millinocket Lakes of the West Branch Chain and the Katahdin area, while the East Branch region of the Penobscot is reached through Medway to Grindstone, Stacyville, Sherman Station, Mt. Chase and Patten to Shin Pond. From Shin Pond northward is the large lake-studded area of Penobscot County which includes Mattagamom (Grand), Scraggly, Snowshoe, Grand and Seboeis Lake and several mountains.

MILLINOCKET

MAINE

AROOSTOOK *County*

AROOSTOOK COUNTY, largest in the State, forms the northern and most of the eastern boundary of the State of Maine. Covering 6,453 square miles, not more than 20 per cent of the county is under cultivation as farm lands, yet that 20 per cent, or nearly a million acres, each Summer becomes New England's

greatest flower garden, with thousands of acres of vari-colored potato blossoms and seas of white, red and crimson clover.

The remaining 80 per cent of this northern wonderland is a wilderness of dense forest, sparkling lakes and rushing rivers and streams, where fish and game in season can be had for the taking.

During the Spring and Fall it is the goal of thousands of fishermen and hunters.

Geographically and commercially, Aroostook has

four characteristic regions. The southern part of the county centers on Houlton; then there is the Presque Isle-Fort Fairfield-Caribou area; there is the Van Buren-Madawaska-Fort Kent-Eagle Lake area in the extreme northeast; and finally there is the vast expanse of roadless forest and hills, lakes, streams and rivers comprising the western part of the county. This is cut by such famous rivers as the Machias, Fish, Allagash, St. John, Big and Little Black and St. Francis, all flowing into the St. John to make it a broad, mighty river curving around the northern tip of Maine to where it flows down through New Brunswick to the sea.

Main highways enter Aroostook from the south at Macwahoc on Route No. 2 from Bangor and at Weston on Route No. 1 from Calais. From Macwahoc Route No. 2 follows the course of Molunkus Stream, with Molunkus Lake nearby, to Monarda, Silver Ridge and Golden Ridge to Island Falls. Another road (gravel), south of Macwahoc passes the western side of Molunkus Lake to Benedicta, Sherman and Sherman Mills, all of them potato growing, lumbering, and hunting and fishing centers. These usually are reached from Route No. 2.

AROOSTOOK COUNTY

Island Falls likewise is a commercial center for farming, lumbering and nearby resorts. It is on the falls of the west branch of the Mattawamkeag River and has several lumber and wood products mills. Northeast of Island Falls, is the Pleasant Lake area, one of Theodore Roosevelt's favorite hunting and fishing spots.

Northeast the road passes through Dyer Brook, Merrill, Smyrna Mills, Oakfield and Ludlow and New Limerick to Houlton. These are potato raising and lumbering centers, with nearby lakes and streams producing bass, pickerel, salmon and white perch.

Houlton is the commercial and shopping center for Southern Aroostook. Here also is the second junction in Maine of U. S. Routes One and Two and a crossing into Canada via Woodstock, N. B.

From Weston, with its magnificent view of East Grand Lake, Route One enters Aroostook on the way to Houlton and the north, passing through Orient, Amity, Cary and Hodgdon, all of them agricultural and lumbering communities. Alternate Route Two from Macwahoc, also cuts northeast to Houlton, passing through Reed, Haynesville, Glenwood and Linneus. This route traverses a mountain, lake and stream region with Wytopitlock Lake and Stream, and the East and West Branches of the Mattawamkeag, draining the surrounding wilderness areas.

North from Houlton Route One passes through Littleton, a potato farming community; Monticello, with excellent hunting and fishing along with its farms and lumbering; Bridgewater, a lumbering and potato center; to Mars Hill, a shopping center with an excellent view of the St. John River Valley. Mars Hill figured prominently in the historic border disputes between the United States and Great Britain.

Presque Isle is a modern city in the valley of the Aroostook River and is surrounded by some of the most

(Continued on Page 108)

THE BRADFORD CAMPS

Landlocked Salmon and Native Squaretails

Excellent all season trout fishing. Why not plan a trip for Trophy Squaretails in August or September!

Main Lodge on Munsungun Lake with out-post camps at Clear Lake on the Musquacooks—Spider and Big Pleasant Lakes on the Allagash—Reed and Bluffer Ponds on the Aroostook Waters.

All parties base at Munsungun and visit out-post camps on overnight trips with guide. Guides recommended on all fishing trips.

For an added attraction and for those who wish to just vacation and rest during August and September we sponsor a supervised program of Archaeological Research pertaining to the Indians of Maine.

Unaccessible by road—float plane service from Portage or Greenville, Maine.

McNally's Wilderness Fishing and Hunting Camps

Allagash, Musquacook, and Fish River Headwaters

Back in the deep woods of Northern Maine, a plain old fashioned place to fish, hunt, relax, and enjoy your own company. No roads within many miles of even the base camps. Several outpost cabins make it easy to enjoy a wide variety of lakes, ponds, and streams.

Speckled Trout, Landlocked Salmon, Lake Trout, Deer, Bear, Partridge, Black Duck

This is not a new adventure with us, we have been right here for fifty-odd years and we are looking forward to at least that many more. We can't accommodate very many but we do like to have a few nice folks around. If you will write us in detail, we will be happy to give you the whole story on the place. Sorry, we just can't answer cards and we do not have cabins with housekeeping facilities.

McNALLY'S SPORTING CAMPS

PORTAGE, MAINE

fertile farm lands in the County. It is the center of an extensive potato growing region and from it a network of roads radiates to Ashland, Washburn, Caribou and Fort Fairfield, with other surrounding towns such as Westfield, Chapman, Mapleton, Castle Hill, Easton and Maple Grove centering the products of their farms and forests on the larger community.

Presque Isle also is the center of an extensive sports and vacationing area of lakes, streams and mountains. Nearby Aroostook State Park is a 430-acre recreation spot both in Summer and Winter.

During the last war the Presque Isle Airport was transformed into a gigantic, sprawling development which was the American terminus for trans-Atlantic transport flight. It has recently been converted to a jet plane base.

Caribou is the potato shipping center for Northern Aroostook, annually sending out thousands of carloads for seed and market. Caribou also has the world-famous Nylander Museum, with an unusual collection of fossil-bearing rock.

On the road from Caribou to Limestone, site of the great Northeast Army Air Base, is a State Fish Hatchery. Fort Fairfield is another important potato, lumbering and shopping center and is a port of entry from Canada. North from Caribou are New Sweden and Stockholm. With Connor, these form a group of attractive farming communities. Route 161 from Caribou also leads to Guerette, between Cross Lake and Mud Lake and is the center of a large lake and stream region famous for trout, salmon and hunting. Sinclair, St. Agatha, Ouellette and Daigle are further north in the same region.

At Van Buren, Madawaska, Fort Kent and St. John, international bridges span the St. John River. Lumber, pulp and potatoes are major activities of the re-

gion. Madawaska is the point of entry from Canadian Route Two, an important highway from Riviere du Loup and Quebec City.

Madawaska, Maine's most northerly town, is the site of the Canadian-owned Fraser Paper Co., Ltd. Along with Van Buren, Keegan, Lille, Grand Isle, St. David, Frenchville and Fort Kent, these St. John River Valley towns were settled by the Acadians and are today centers of farming, lumbering and pulp operations.

St. Agatha, south of Frenchville is a terminal point for the Fish River Chain of lakes across Northern Aroostook, while Fort Kent is the terminus of the famous Allagash River Canoe Trip. St. John, St. Francis, at the confluence of the St. Francis and St. John Rivers, Allagash and Dickey, to the west along the St. John, are settlements at the northern edge of the central Aroostook wilderness.

From Fort Kent, Route 11, the Aroostook Scenic Highway, strikes south in almost a direct line to Mat-tawamkeag on the Penobscot. It traverses Michaud, Wallagrass, Eagle Lake, Winterville, Portage and Nashville to Ashland, all regions on the Fish River Chain and with waters having an abundance of land-locked salmon, trout and togue. Hunting and canoeing through this region are excellent. Portage, on Portage Lake, is a leading seaplane base and gateway to the vast forest and lake area of north central Aroostook.

South of Ashland, which is an important lumber, potato and sporting camp center, is Masardis, center of a region of extremely fertile soil, lake and stream fishing and hunting, and famous Squa Pan Lake and Mountains. Oxbow also is a hunting and fishing center for sportsmen, leading into a beautiful region along the Upper Aroostook River, Mooseleuk Stream and many lakes.

LINCOLN COUNTY

(Continued from Page 85)

house take one back to Indian times, when three other forts rose and fell on the same spot. The fort is now a museum containing relics of the colonial times. It is open to the public during the summer months. Close by is scenic Pemaquid Light, located on a high promontory, overlooking the waters of Muscongus Bay and is easily accessible by automobile. Round Pond, sloping down to a small cove on Muscongus Bay and nearby Loud's Island are picturesque for their fishing and boating activities.

North along the shore of Muscongus Bay are Medomak and Bremen, on the Medomak River, both of them fishing and resort villages, and Waldoboro, a commercial and small industry center. Deep-sea fishing and fly fishing for mackerel and pollock are popular with visitors and residents alike. Gamy striped

bass and large tunas also are caught in nearby waters. At Bremen, on Route 32, just outside of Waldoboro, the "Old German Meeting House," built by the early settlers of the region, is open for visitors. On Hog Island, off Bremen is the Audubon Nature Camp, where people from all over the United States come to study at the Todd Wild Life Sanctuary. The National Audubon Society is here engaged in a program for the preservation of wild life.

North Whitefield, Coopers Mills and Somerville, in the northern part of the county, are inland villages of rural attractiveness, with several nearby lakes and ponds.

Lincoln County, though small in area, is one of the most beautiful of Maine's coastal counties with many miles of ocean peninsulas and bays easily reached by good highways and an inland region of lakes and ponds where fishing, hunting and vacationing are available in abundance.

Maine Invites You

OFFICIAL INFORMATION SERVICE

FOR 34 YEARS the State of Maine Publicity Bureau has been providing a free, complete and personalized information service about the Pine Tree State, its resources, facilities and accommodations. It is the pioneer among State-wide publicity and promotional agencies and has been of valuable service to millions of people during those years.

You, too, are cordially invited to make full use of our facilities—free at all times—when planning your visit and after you arrive in Maine. Our primary goal is to make your visit to Maine as enjoyable as possible.

Our home office, pictured above, is at the traffic circle (Gateway Circle) at the southern highway entrance to Portland; you will find branch and allied information offices located at more than 40 strategic points throughout the State of Maine; and you will find our New York Office in the R. C. A. Building at 30 Rockefeller Plaza.

Visit the Pine Tree State this year—
